RE: Case No. 18-0603-EL-BLN
Dilles Bottom-FE Corridor 138 kV Transmission Line Project
Notice of Adjustments

Dear Chairman Haque:

After consulting with OPSB Staff, AEP Ohio Transmission Company, Inc. (“AEP Ohio Transco”) provides the following notice of adjustments to structures associated with the above referenced Project.

AEP Ohio Transco proposes to adjust 6 structures along the approximately 1.3-mile route from the Dilles Bottom Station to an interconnection with a FirstEnergy transmission line corridor. Four structures have shifted approximately 30 feet west of the OPSB-approved centerline, and 2 structures have shifted approximately 15 feet west of the OPSB-approved centerline. The proposed adjustments do not affect any new property owners, require any additional tree clearing, require any new right-of-way, or impact additional wetlands or streams.

Construction of AEP Ohio Transco’s Project is currently planned to begin in the first quarter of 2020. The in-service date for the Project is currently planned for May 2020.

Please let me know if you have any questions or need additional information.

Respectfully submitted,

/s/ Christen M. Blend
