Subject: Comment on Case No. 18-0501-EL-FOR for Renewable Energy
Date: Friday, January 18, 2019 10:41:15 AM

Dear PUCO Docketing Division,

I am writing to urge you to support AEP's proposed renewable projects (and ask that my comment be docketed in Case No. 18-0501-EL-FOR). We need the jobs that these projects will bring to our communities, we want cleaner air and water for our families, and we want to benefit from the lower energy costs that come with renewable development.

Ohio has fallen behind neighboring states like Michigan and Indiana. You can help to change that by supporting these projects and helping Ohio to become a clean energy leader in the region.

I urge you to find that there is an urgent need for the AEP renewable energy projects and to approve them.

Sincerely,

Laura McCabe

Dear PUCO Docketing Division,

It is important that we start reducing our dependence on fossil fuels which are dirty and damage the environment. Increasing use of renewable energy will help us do so. I am an AEP customer and recently installed solar panels. I would have liked to install a few extra panels for low solar times and for the anticipated purchase of an electric vehicle. I think that should be allowed, not limited to 100% of current use. It would not have cost you for me to install them and it means less fossil fuels you would have to buy.

I am writing to urge you to support AEP's proposed renewable projects (and ask that my comment be docketed in Case No. 18-0501-EL-FOR). We need the jobs that these projects will bring to our communities, we want cleaner air and water for our families, and we want to benefit from the lower energy costs that come with renewable development.

Ohio has fallen behind neighboring states like Michigan and Indiana. You can help to change that by supporting these projects and helping Ohio to become a clean energy leader in the region.

Dear PUCO Docketing Division,

While other nations are way ahead of our nation in converting to renewable energy sources, this is a significant step for Ohio!

Best Regards
Robert E. Mobley

Dear PUCO Docketing Division,

Solar panels are the best choice for low cost, carbon emissions free electricity. These projects can be used to start Ohios use of these.

I am writing to urge you to support AEP's proposed renewable projects (and ask that my comment be docketed in Case No. 18-0501-EL-FOR). We need the jobs that these projects will bring to our communities, we want cleaner air and water for our families, and we want to benefit from the lower energy costs that come with renewable development.
