Subject: Comment on Case No. 18-0501-EL-FOR for Renewable Energy
Date: Monday, January 21, 2019 4:02:45 PM

Dear PUCO Docketing Division,

I am writing to urge you to support AEP's proposed renewable projects (and ask that my comment be docketed in Case No. 18-0501-EL-FOR). We need the jobs that these projects will bring to our communities, we want cleaner air and water for our families, and we want to benefit from the lower energy costs that come with renewable development.

Ohio has fallen behind neighboring states like Michigan and Indiana. You can help to change that by supporting these projects and helping Ohio to become a clean energy leader in the region.

I urge you to find that there is an urgent need for the AEP renewable energy projects and to approve them.

Sincerely,

Hannelore Willeck

Dear PUCO Docketing Division,

Renewable projects would bring safer jobs to an area that needs them. It will also bring power without the environmental degradation of coal. If the installation follows the laws and best practices for stream protection, the renewable projects would be less harmful to the environment, including people who live in that environment. We have solar and geo-thermal, we compost, we recycle, we have used electric and hybrid cars, and we live nicely. Please build renewables and promote the conservation of clean energy.

I am writing to urge you to support AEP's proposed renewable projects (and ask that my comment be docketed in Case No. 18-0501-EL-FOR). We need the jobs that these projects will bring to our communities, we want cleaner air and water for our families, and we want to benefit from the lower energy costs that come with renewable development.

Dear PUCO Docketing Division,

It is unthinkable at this late date following major dire warnings on rapidly occurring global climate change, that the Ohio PUCO would balk at the potential of implementing clean, renewable, environment-saving energy when the opportunity is at hand. Get with the program people, or the catastrophic consequences that will inevitably occur from your resistant, ignorant policies will lie at YOUR feet. Please take ENLIGHTENED action on this crucial issue NOW! Time is running out! All Ohioans are counting on you!

David A. Lipstreu

Subject: Please Approve the Ohio Solar Projects: Comment on Case No. 18-501-EL-FOR
Date: Saturday, January 19, 2019 12:08:58 PM

Dear Public Utilities Commission of Ohio:

I'm writing in support of American Electric Power (AEP)'s proposed solar energy project and ask that my comment be docketed in case No. 18-501-EL-FOR.

These innovative solar farms will bring low-cost renewable energy to the state, while saving customers money on their utility bills and spurring the creation of new jobs for Appalachian Ohio.

In fact, they would support more than 4,000 jobs, including 113 sustainable manufacturing jobs in the solar supply chain.

States across the country are investing in cheaper, cleaner, and more reliable energy sources that are benefiting local economies and our environment. And now it's Ohio's turn. We need sustainable energy production.

Please help support Ohio's clean energy future and make the state a solar energy leader in the Midwest!

Thank you so much for your time.

We need more solar energy!

Please docket the comment above in the case number above.

PUBLIC UTILITIES COMMISSION OF OHIO
Consumer Service Division
Memorandum

CASE ID: 00246806
CUSTOMER: Sarah Lucas
SERVICE ADDRESS: Summit, Columbus, OH 43201
AIQ: Ohio Power Company
NIQ: (978) 303-7867

DOCKETING CASE #: 18-0501-EL-FOR

SUBJECT: Ohio Power Company - Protest Rate Case

To whom it may concern:

I am writing in support of American Electric Power (AEP)'s proposed energy project and ask that my comment be docketed in case No. 18-501-EL-FOR.

I have been an AEP customer for almost three years now. I strongly support this proposed project; it's impact on our economy will be wonderful, whether through jobs or lowering energy bills. This would also help Ohio move towards energy innovation and sustainability, hugely important words, especially in light of the recent IPCC report. Ohio can be the leader in energy technology. I am excited by this proposal and want to issue my support in making that happen.

Thank you for taking the time to read my comment. Please support this proposed energy project for the future of Ohio, Ohioans and the rest of the earth.

Sincerely,
Sarah Lucas
Columbus, OH

Please docket the comments above in the case number above.
