

Public comment 18-0488

When I first became aware that I was going to be living with 18 turbines within 1 ½ miles of my home my first thought was that it would ruin the beautiful landscape. I have worked hard to make our property a haven for the wildlife and preserve the peacefulness that I love. It is so quiet at my house that I can literally hear a gentle snowfall. Since being informed about this project I started to educate myself on “wind farms”. Unfortunately I can now say that the landscape is no longer my primary concern. I have read and talked to people who have real health issues due to living by turbines. I am scared for my family’s health and wellbeing. I urge you to consider the negative experiences of others who have lived near turbines and not repeat the same mistakes in Seneca County. I trust that you will do the right thing by protecting the people of our county.
