Subject: Comment on Case No. 18-0501-EL-FOR for Renewable Energy
Date: Thursday, February 7, 2019 2:16:20 AM

Dear PUCO Docketing Division,

It's important to take care of the environment and create jobs in Ohio.

I am writing to urge you to support AEP's proposed renewable projects (and ask that my comment be docketed in Case No. 18-0501-EL-FOR). We need the jobs that these projects will bring to our communities, we want cleaner air and water for our families, and we want to benefit from the lower energy costs that come with renewable development.

Ohio has fallen behind neighboring states like Michigan and Indiana. You can help to change that by supporting these projects and helping Ohio to become a clean energy leader in the region.

I urge you to find that there is an urgent need for the AEP renewable energy projects and to approve them.

Sincerely,

Charity Coleman

Dear PUCO Docketing Division,

Whether or not you believe in climate change, renewable energy is the future. Make Ohio a leader in this movement. Bring the jobs to Ohio before the jobs are developed elsewhere.

I am writing to urge you to support AEP's proposed renewable projects (and ask that my comment be docketed in Case No. 18-0501-EL-FOR). We need the jobs that these projects will bring to our communities, we want cleaner air and water for our families, and we want to benefit from the lower energy costs that come with renewable development.

Dear PUCO Docketing Division,

This project would bring a boost of much needed jobs to Ohio and help to protect our environment. It allows for new skill development for people who may need to change job focus and provides a new clean , low cost energy source for our state.

I am writing to urge you to support AEP's proposed renewable projects (and ask that my comment be docketed in Case No. 18-0501-EL-FOR). We need the jobs that these projects will bring to our communities, we want cleaner air and water for our families, and we want to benefit from the lower energy costs that come with renewable development.

Dear PUCO Docketing Division,

AEP's proposal is just what every power oriented company must do. Do not develop any more fossil fuel sources. Carbon is ruining our planet and our atmosphere. We have little time to turn this around and solar and wind and water are renewable sources and will not destroy our earth.

I am writing to urge you to support AEP's proposed renewable projects (and ask that my comment be docketed in Case No. 18-0501-EL-FOR). We need the jobs that these projects will bring to our communities, we want cleaner air and water for our families, and we want to benefit from the lower energy costs that come with renewable development.

Subject: Please Approve the Ohio Solar Projects: Comment on Case No. 18-501-EL-FOR
Date: Thursday, February 7, 2019 2:33:23 PM

Dear Public Utilities Commission of Ohio:

I'm writing in support of American Electric Power (AEP)'s proposed solar energy project and ask that my comment be docketed in case No. 18-501-EL-FOR.

These innovative solar farms will bring low-cost renewable energy to the state, while saving customers money on their utility bills and spurring the creation of new jobs for Appalachian Ohio.

In fact, they would support more than 4,000 jobs, including 113 sustainable manufacturing jobs in the solar supply chain.

States across the country are investing in cheaper, cleaner, and more reliable energy sources that are benefiting local economies and our environment. And now it's Ohio's turn.

Please help support Ohio's clean energy future and make the state a solar energy leader in the Midwest!

Thank you so much for your time.

Mr. Kyle Schreiner
Cincinnati, OH

AIQ: Ohio Power Company

NIQ: 0000000000

DOCKETING CASE #: 18-501-EL-FOR

SUBJECT: Ohio Power Company - Regarding PUCO

Ohio has seen coal plants close in Ashtabula, Eastlake and Cleveland. The Avon Lake plant is near the end of its useful life. The Davis Besse nuclear plant is scheduled to be closed next year. Ohio needs energy diversity and new sources of power to avoid brownouts. The AEP solar project is an important step toward enhancing our energy diversity.

Please docket the attached in the case number above.
