Subject: Comment on Case No. 18-0501-EL-FOR for Renewable Energy
Date: Friday, February 8, 2019 4:13:03 PM

Dear PUCO Docketing Division,

We struggle to pay our high bills as a single mom of two children. Renewable energy makes so much sense! Please approve the AEP renewable energy projects!!!

I am writing to urge you to support AEP's proposed renewable projects (and ask that my comment be docketed in Case No. 18-0501-EL-FOR). We need the jobs that these projects will bring to our communities, we want cleaner air and water for our families, and we want to benefit from the lower energy costs that come with renewable development.

Ohio has fallen behind neighboring states like Michigan and Indiana. You can help to change that by supporting these projects and helping Ohio to become a clean energy leader in the region.

I urge you to find that there is an urgent need for the AEP renewable energy projects and to approve them.

Sincerely,

Samantha Seale

Dear PUCO Docketing Division,

Scientists have overwhelmingly agreed that climate change is real and is skyrocketing because of human activity. I have three beautiful grandchildren. I want them to inherit a earth that is clean and habitable: one that will be beautiful for all future generations.

I am writing to urge you to support AEP's proposed renewable projects (and ask that my comment be docketed in Case No. 18-0501-EL-FOR). Dear PUCO Docketing Division,

I should not HAVE to comment to PUCO on this issue. Normal brain function would make one realize these things to help the planet must be done!
