Comments received via OPSB website, please file in docket.

I've lived in this area for 20 years and I've been following the Emerson Creek Wind project (Docket No. 18-1607-EL-BGN, Emerson Creek) for quite some time. I've participated in public discussions and directly interacted with the developer, Apex Clean Energy. Apex has been accessible but disappointingly unresponsive or directly answering my questions and feedback. They have repeatedly told me information they have cannot be shared with the non-lease holders and that I must wait until the application is submitted and I would just have to read the report. Overall, they have been very aloof and seemingly annoyed with members of the community that are critical of the project but want to preserve the rural atmosphere of our townships. I've talked to my fellow residents, I see a broad rejection of the Emerson Creek Wind project. There are so many in the county who do not want wind projects that an Anti-Emerson Creek group has been formed to make sure elected officials are aware of opposition. The adverse economic, community, Infrastructure and health risks that would result from this project are hardly debatable. For these reasons I urge you to reject Emerson Creek Wind.

Sincerely, Walter E. Poffenbaugh
Norwich Township, Huron County
