Dear PUCO Docketing Division,

I would also like to see a similar project in Scioto or Lawrence County, Ohio. I have lived and worked in both of these counties and know that there is a great need for the kind of economic development these sites could bring, and I am also aware of many older industrial sites that exist in these counties where solar farms could be easily located.

I am writing to urge you to support AEP's proposed renewable projects (and ask that my comment be docketed in Case No. 18-0501-EL-FOR). We need the jobs that these projects will bring to our communities, we want cleaner air and water for our families, and we want to benefit from the lower energy costs that come with renewable development.

Ohio has fallen behind neighboring states like Michigan and Indiana. You can help to change that by supporting these projects and helping Ohio to become a clean energy leader in the region.

I urge you to find that there is an urgent need for the AEP renewable energy projects and to approve them.

Sincerely,

Dear PUCO Docketing Division,

Ohio already has hundreds and hundreds of jobs related to wind and solar power as well as for electric cars, chargers, components. etc. THIS IS A GOOD HEALTHY MOVE and provides jobs. Thanks.
