To Administrative Docketing:

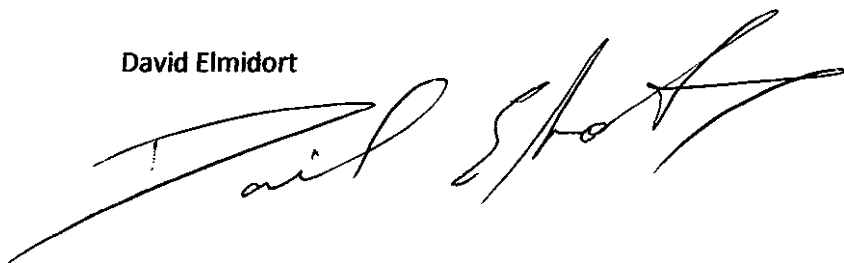

On August 22, 2018, I David Elmidort received a violation letter with Case No. 251005977D stating that I violated the following commissions rules; code 391.11B4, where "driver did not qualify." As an over the road driver, I drive through many states. I always have prescription eyewear that I keep on me while driving.

I was informed by DOT officers in the west coast (where I run most of the time) when I'm over the road, that if my eyewear is in my possession, that it is not a violation. They've always, in my 5 years of driving, allowed me to go in my truck, to retrieve my glasses, to ensure that I have my glasses in my possession. Thus, I never thought, not even for a second, that this could bring a violation to my driving record.

I take my job as well as my profession seriously, I feel as though I'm being punished; even though I have a perfect driving record, never been pulled over in the state of OH ever, not even for a warning. I'm a very cautious driver. I've never been in an accident, I take pride in what I do. Overall, is my career, I've been wearing my glasses or contacts lenses every day since I was pulled over by the DOT officer.

Sincerely,

David Elmidort
