

Against Wind Turbine projects in Seneca County

I am writing to you regarding the following case numbers:

- Case Number 18-0488-EL-BGN: Seneca County Wind Farm
- Case Number 17-2295-EL-BGN: Republic Wind Farm
- Case Number 18-1607-EL-BGN: Emerson Creek Wind Farm

To whom it may concern:

I am writing this letter to let you know as a resident of Seneca County, I am opposed to all the above referenced Industrial Wind Farm Projects.

Rural Seneca County and Sandusky County are much too populated of a rural area for a wind farm. The close proximity to rural residents and rural schools cause great concerns for our health and wellbeing.

At an astounding 650 plus feet, those monstrosities will be among the largest in Ohio and the second largest in the United States. The associated light flicker and noise created by these Industrial Wind Turbines will ruin the rural serenity that we were all trying to enjoy by choosing to live here.

I personally will live within 1-1/2 miles from three (3) wind turbines which is why I choose to intervene, and I have a real and substantial interest in this proceeding.

Seneca County Resident
