We oppose the following wind projects 18-0488-EL-BGN: Seneca Wind Farm, 17-2295-EL-BGN: Republic Wind Farm, 18-1607-EL-BGN: Emerson Creek Wind in Seneca County due to the concerns of industrial wind turbines having a negative impact on the quality of life for rural residents. These negative impacts are in the forms of constant sound levels over 45 decibels which the World Health Organization has deemed a health risk. Other negative impacts to the quality of life include, infrasound and shadow-flicker. The industrial turbines will have negative impacts on our environment by the unnecessary killing of wildlife and the contamination of the water table.
