Members of the Ohio Power Siting Board:

I think it would be a major, potentially fatal, mistake to allow Duke Energy to run a high pressure pipeline through the middle of heavily populated neighborhoods in Hamilton County. I urge you to place the highest priority on human safety as you review Duke's application and its claimed need for this pipeline.

Thank you,

Bernice Bishop  
Blue Ash, OH

Dear Ohio Power Siting Board,

As a resident of Sycamore Twp and concerned citizen, I am writing you to register my opposition to Central Corridor Pipeline Extension Project (Reference No. 16-253- GA-BTX).

I am a resident of the Heitmeyer Farms neighborhood in Sycamore Township, Hamilton County, Ohio. I am a nurse, a mother, and a student in University of Cincinnati's Doctorate of Nursing Program. I am studying Health Policy this term and have been looking at current policy issues. The issue of Duke Energy's proposed natural gas pipeline extension is meaningful to me as a resident of Sycamore Twp. The proposed pipeline would be problematic in that it comes with many risks. With the recent explosion of the natural gas pipeline in Noble County, Ohio, it is hard to ignore the real threat and sequelae of a natural gas pipeline burst. Most natural gas pipelines run through rural areas, but the planned pipeline in just my local township could affect the 19,000+ residents in Sycamore. In such a densely populated area, just the construction alone would have negative impact on infrastructure, traffic, and potentially decrease business for local business owners. Please strongly oppose this central corridor pipeline extension project. I plan to remain vocal about my stance against this issue. Thank you for your consideration.

This pipeline will travel through densely populated areas, including my neighborhood and will pose a danger to residences, schools, businesses and houses of worship.

Unlike delivery pipelines, this pipeline will be under up to 500psi pressure and an accident or rupture could cause injuries, death and destruction of property within a radius of 1000 feet.

I ask you to oppose this pipeline and encourage both Duke Energy and the Ohio Power Siting Board to reject this pipeline

Thank you for your consideration.

Regards,  
Sasha Roneker

I live in Reading, Ohio and I want to voice my opposition to your plans for a pipeline through my neighborhood which I feel is to dangerous and disruptive to be placed In a residential area.why .can you not put this pipeline in an area where there are no people.
