---

Dear Ohio Power Siting Board,

As a resident of Amberley and concerned citizen, I am writing you to register my opposition to Central Corridor Pipeline Extension Project (Reference No. 16-253- GA-BTX).

To Whom it May Concern:

On behalf of our family, I am writing to you in displeasure over the Duke Central Corridor Project. I find it completely unacceptable to upheave so many different lives for Duke's convenience. And yes, I would love to have my son grow up in an area where a crappy pipeline could explode at any moment. Low risk? Right, please tell that to my girlfriend who lives near a burst pipeline and can't sell her house.

It's completely pathetic that a large, overgrown energy supplier would screw a bunch of citizens for their time, convenience and safety all the while those citizens are paying \$4200 a year for energy. That's roughly \$6.3 million from Amberley alone. Something seems a little bit....shall we say communist about this?

And of course the cities of Mariemont, St. Bernard and Woodlawn sent a letter of support, it's not going into their backyard. It's a pathetic joke to tout support of someone who doesn't have any skin in the game. Where's the support of Blue Ash or Amberley Village???? Non-existent.

Representative Brinkman with the letter of support, as he doesn't want it in Eastern Hamilton County either. He sent that letter to not screw his constituents, just everyone else. Same goes for Senator Wilson. Spineless really, because they know this isn't safe and it is not ok but as long as it doesn't effect them they just move on.

In conclusion, if you are going to be bullied to let Duke build this pipeline you can absolutely expect not to have my vote next election and I will fight my hardest to make sure that others vote against you as well.

Sincerely,

Kathleen Susan Grise

This pipeline will travel through densely populated areas, including my neighborhood and will pose a danger to residences, schools, businesses and houses of worship.

Unlike delivery pipelines, this pipeline will be under up to 500psi pressure and an accident or rupture could cause injuries, death and destruction of property within a radius of 1000 feet.

I ask you to oppose this pipeline and encourage both Duke Energy and the Ohio Power Siting Board to reject this pipeline

Thank you for your consideration.

Regards,

Kate Grise

I am writing to oppose Duke's Central Corridor Pipeline. Case number:16-0253-GA-BTX

Duke's Central Corridor Pipeline is Unnecessary, irresponsible, and not for us!

Duke Energy wants to run a massive natural gas transmission pipeline, called the Central Corridor Pipeline Extension, directly through our neighborhoods. This pipeline is not necessary to serve the area's energy needs, yet Duke expects us to shoulder the costs, safety risks, economic burdens, and environmental destruction. The proximity to residential areas, schools, places of worship and office space makes this an even greater risk.

Mickey Fishman

Resident of Amberley Village

Dear Unelected Person Complicit in my potential death,

I remain amazed the State of Ohio is entertaining a major Pipeline running through the heart of Cincinnati's Northern Suburbs.

I continue to see in the press reports of pipeline explosions. I'm not super technical, but I know the pipeline proposal is for a very high volume pipeline that has the potential to cook me while I sleep.

Cook my wife while she sleeps

Cook my son while he sleeps

Cook my neighbors while they sleep

My request is for the person who approves this pipeline to rot in hell.

This pipeline is just plain wrong. Who is Duke paying to permit this disaster to move forward?

What is interesting is the State Representative who sat idly by has been replaced. I expect the reason for his replacement was strongly correlated for how little support for the community he exhibited.

Protect the lives of people, profits are secondary.

Please do the right thing, and god have mercy on your soul when people die because of this pipeline.

Sincerely,

Michael Egan  
9847 Catalpa Woods Court  
Blue Ash OH, 45242

PS - I lived in North Andover prior to moving to Blue Ash and we are good friends with a person who lived across the street from one of the homes burned to the ground in the pipeline disaster there last year. Disasters do happen.

CC: State Representative Miranda
