Seneca Wind Farm-18-0488-EL-BGN

We were both born and raised in Seneca County and Scipio Township. The wild life and human safety seems not important to these people wanting to put up turbines in small rural townships, where they are sectioned off in 1 square miles. Our health and the human safety for all farm animals and wildlife is a large concern. We worry also about the water table of our rural homes. Put these in a vast open space where there are no homes. We want to keep our country sides free of monster turbines that may keep a person awake at night..We also need to keep the sky free for our Life Fights that may be needed..1 sq. mile doesn't give much of a landing zone. We don't want to see them in our neighboring townships..We are against Republic Wind Farm-17-2295-EL-_BGN and Emerson Creek Wind -18-1607-EL-BGN. We just built a new home and found out 4 months after we moved in this was all going down..I think it was sneaky and deceitful to the public..Thanks for hearing us out.

Charles and Victoria Cooley
