I am writing to you to let you know that I am 100% against the proposed wind farms slated to be built in Erie, Huron, Sandusky and Seneca counties. I am a 77 year old female who moved to Bellevue in 1949. At present I serve on the Bellevue City Council (although this is my personal opinion, and I will be resigning at the end of the year). I also enjoy many activities that include book clubs, volunteer work, and other social events.

Now for MY opinion and MY concerns.

#1- I am concerned about building these monstrosities in a karst area. My son owns land about a mile from town and if you go down more that 24 inches you hit solid rock. Will our karst collapse? How will they affect our wells and drainage?

#2- I am concerned about the rumors I have heard about affecting others health. I have neighbors who have an autistic child and the last thing they need is for more issues to their child's health.

#3- I am concerned about the wildlife. We are just now starting to see our national bird in this area. Also I am concerned about the migrating birds.

#4- AND THIS IS THE MOST IMPORTANT in my book. I am concerned and frightened that Bellevue will become land locked. We have very little room for expansion within the city limits at this time. If these turbines are allowed to be built around our town, how can we expand? How can we annex any land to our town if these things are built all around us? No one will want to move to a town that has no room for expansion. And no one will want to buy a house that is surrounded by turbines as tall as those proposed for our area.

Peggy Missler
