PRE-APPLICATION NOTIFICATION LETTER
The Former Burger 138 kV Transmission Line
Extensions to Holloway Substation Project
Case No. 19-0985-EL-BLN

Dear Ms. McNeal:

In accordance with Ohio Administrative Code ("OAC") Rule 4906-6-03(A) and OAC Chapter 4906-6 generally, this letter will serve as the pre-application notice letter of applicant American Transmission Systems, Incorporated ("ATSI"), a FirstEnergy company, for the above referenced Project. ATSI expects to file a Letter of Notification application with the Ohio Power Siting Board ("Board") for the Project shortly.

ATSI is proposing to construct approximately 0.27-mile-long new transmission line extensions from the deenergized former Burger-Harmon No.2, Burger-Cloverdale No. 1, and the Burger Line Loop Transmission Lines into AEP's Holloway Substation. The deenergized transmission lines will be converted to 6 wire configurations on the existing structures for approximately 2.51 miles. Two new structures will be constructed at the southern end of the deenergized transmission lines to connect to AEP's proposed Dilles Bottom-Holloway and George Washington-Holloway 138 kV Transmission Lines, which the Board considered and approved on August 22, 2018 in Case No. 18-0603-EL-BLN. South of the interconnection point between AEP and ATSI, approximately 0.93 miles of the deenergized transmission lines will be removed. The Project will be located in Mead Township, Belmont County, Ohio.

Construction of this Project is expected to begin as early as June 17, 2019 and be completed by December 31, 2019.

Please be advised that pursuant to Ohio Administrative Code 4906-6-04, ATSI is requesting expedited review of this Project.

Sincerely,

William R. Beutler
Engineer III
Energy Delivery Transmission and Substation Design
FirstEnergy Service Company
