Date: Thursday, May 16, 2019 4:21:57 PM

Dear PUCO Docketing Division,

I am writing to urge you to support AEP's proposed renewable projects (and ask that my comment be docketed in Case No. 18-0501-EL-FOR). We need the jobs that these projects will bring to our communities, we want cleaner air and water for our families, and we want to benefit from the lower energy costs that come with renewable development.

Ohio has fallen behind neighboring states like Michigan and Indiana. You can help to change that by supporting these projects and helping Ohio to become a clean energy leader in the region.

I urge you to find that there is an urgent need for the AEP renewable energy projects and to approve them.

Sincerely,

Becca Pollard

Dear PUCO Docketing Division,

Worthington recently approved solar aggregation for our city. We hope to save money and lower our carbon footprint. We would like Ohio based solar as part of the mix. Clean energy will also help my husband, who has asthma. I strongly support this project.

Dear PUCO Docketing Division,

Worthington is excited about our new electric aggregation plan. We would be even happier if we could buy Ohio RECs -- supporting clean, green power matters to me very much. I support this AEP project. I am an AEP customer.

Dear PUCO Docketing Division,

We need to attract clean energy jobs here and keep up with the rest of the country and world in terms of reducing carbon emissions. Ohio CAN do it too!
