HEALTHTRUST PURCHASING GROUP, L.P.
CERTIFICATION APPLICATION FOR AGGREGATORS/POWER BROKERS
EXHIBIT B-1 JURISDICTIONS OF OPERATION

A list of all jurisdictions in which applicant or its affiliates are currently certified, licensed, registered, or otherwise authorized to provide retail or wholesale electric services, including aggregation services, for its members includes the following states: Connecticut, Delaware, Illinois, Massachusetts, Maryland, Maine, New Hampshire, New Jersey, Oregon, Pennsylvania, Texas, and the District of Columbia.

HEALTHTRUST PURCHASING GROUP, L.P.
CERTIFICATION APPLICATION FOR AGGREGATORS/POWER BROKERS
EXHIBIT B-2 EXPERIENCE AND PLANS

On behalf of its member healthcare providers, Applicant negotiates the purchase of goods and services with third party suppliers, including negotiations for the purchase of electricity and related services, so that its members can benefit from their combined purchasing power. Applicant issues a Request for Proposals (RFP) to third-party licensed or certificated competitive retail electric service (CRES) providers to serve the aggregate demand of Applicant's participating members. Applicant then negotiates a Group Purchasing and Energy Aggregation Agreement (Group Purchasing Agreement) with the winning licensed CRES provider, including pricing and other terms of its members' purchase of electricity from the third-party licensed CRES provider. In accordance with the Group Purchasing Agreement, each participating member enters into a separate Transaction Agreement with the third-party licensed CRES provider, whereby the member purchases electricity directly from the third-party licensed CRES provider, and remits payment directly to the electric distribution company or the third-party licensed CRES provider. Applicant does not take title to the electricity, make payments on behalf of its members, or receive any payments from its members. Applicant only receives an administrative fee from the third-party licensed CRES provider, to cover the costs of conducting the RFP and negotiating and administering the Group Purchasing Agreement. Applicant does not provide any services to residential customers, and will not serve residential customers in Ohio.

Applicant proposes to negotiate for the purchase of electricity on behalf of its members in Ohio from a third-party CRES provider certificated or licensed by the Commission. Each member will directly purchase electricity from the third-party certificated CRES provider, and remit payment directly to the electric distribution company or third-party certificated CRES provider. Applicant will not take title to the electricity or responsibility for delivery.

If there are any customer inquiries or complaints regarding Applicant's services, Applicant's in-house legal department or in-house management will serve to resolve any disputes. Applicant may also obtain assistance from outside legal counsel when appropriate.

HEALTHTRUST PURCHASING GROUP, L.P.
CERTIFICATION APPLICATION FOR AGGREGATORS/POWER BROKERS
EXHIBIT B-3 SUMMARY OF EXPERIENCE

Applicant was formed in 1999 to negotiate the purchase of goods and services, including the purchase of retail electric and natural gas services, with third party suppliers on behalf of its member healthcare providers. As a group purchasing organization, Applicant has considerable experience in providing aggregation service(s) for its members, including contracting with customers to combine electric load and negotiating contracts on behalf of its members for the purchase of retail electric and natural gas services. Applicant provides leveraged group purchases of electricity and natural gas for its members through a standardized National Purchasing Agreement and contracts with licensed or certificated competitive retail electric service providers. Applicant's service reduces administrative burden and provides competitive electric and natural gas services at lower costs for Applicant's member organizations. Today, Applicant procures natural gas for over 400 hospitals located in about 35 states, managing gas volumes of over 12 billion cubic feet annually. Applicant also manages electricity contracts for over 800 electric member accounts in about 8 states and the District of Columbia with over 1 million MWh annually managed load.

Paydex

Description:

The D&B payment score (Paydex) is a score that assesses the historical payment performance of a business. The score corresponds to an average number of days beyond terms or within terms and is based on all the trade experiences associated with this business in D&B's database. More specifically, the Paydex is a dollar-weighted average of a company's combined individual payment experiences and ranges from 0-100, with higher scores representing businesses that pay their bills more promptly. In most cases, at least three trade experiences are required for the Paydex to be calculated.

Failure Score (1-100)

Commentary:

- Composite credit appraisal is rated fair
- UCC filings reported
- High number of inquiries to D&B over last 12 months
- Low proportion of satisfactory payment experiences to total payment experiences

FSS Class

Commentary:

The Financial Stress Score predicts the likelihood of a firm experiencing financial stress over the next 12 months. D&B defines a financially stressed company as one that obtains legal relief from its creditors, ceases business operations without paying all its creditors in full, voluntarily withdraws from business operations and leaves unpaid obligations, goes into receivership or reorganization, or makes an arrangement for the benefit of creditors over the next 12 month period, based on the information in D&B's commercial database.

CCS Percentile

Commentary:

The Commercial Credit Score Percentile is a 1-100 ranking where a percentile of 1 has highest probability of delinquency and a percentile of 100 has the lowest probability of delinquency.

CCS Class

Description:

The Commercial Credit Score (CCS) predicts the likelihood of a business paying its bills in a severely delinquent manner (91 days or more past terms), obtaining legal relief from its creditors or ceasing operations without paying all creditors in full over the next 12 months. D&B defines severe delinquency as a business with at least 10% of its payments 91 days or more past due, based on the information in D&B's commercial database. A Commercial Credit

Risk Class of 1-5 is a segmentation of the scoreable universe into five distinct groups where a one (1) represents businesses that have the lowest probability of delinquency, and five (5) represents businesses with the highest probability of delinquency. This Class enables a customer to quickly segment their new and existing accounts into various risk segments to determine appropriate marketing or credit policies. Note: Commercial Credit Scores are not calculated for those businesses designated as "Discontinued at This Location", "Open Bankruptcy", or "Higher Risk". These records are automatically assigned a score of zero (0).

D&B Rating

1R3

Description:

- The D&B Rating is a multi-dimensional risk assessment tool that is comprised of two parts:
- (a) The first part indicates the size of the company based primarily on net worth or issued capital.
 - (b) The second part assesses the likelihood of failure or overall credit standing.

Viability Rating

The D&B Viability Rating uses D&B's proprietary analytics to compare the most predictive business risk indicators and deliver a highly reliable assessment of the probability that a company will no longer be in business within the next 12 months. The D&B Viability Rating is made up of 4 components.
