RE: Letter of Notification  
Isabella Substation Extension Project Update  
Filed as Adjustment to Crooksville-North Newark 138-kV Transmission Line Extension Project  
Case No. 19-0951-EL-BLN

Dear «ADDRESSEE»:

You are receiving this letter because a power line project has been proposed in your area.

AEP Ohio announced the Isabella Substation Extension project last November and filed the project with the Ohio Power Siting Board (OPSB) as the Crooksville-North Newark 138-kV Transmission Line Extension Project, Case No. 18-1678-EL-BLN. The project involves building .3 miles of power line to connect to the new Isabella Substation off OH-345 in Clayton Township in Perry County.

As the project continues to develop we are proposing minor adjustments to the approved route for the power line.

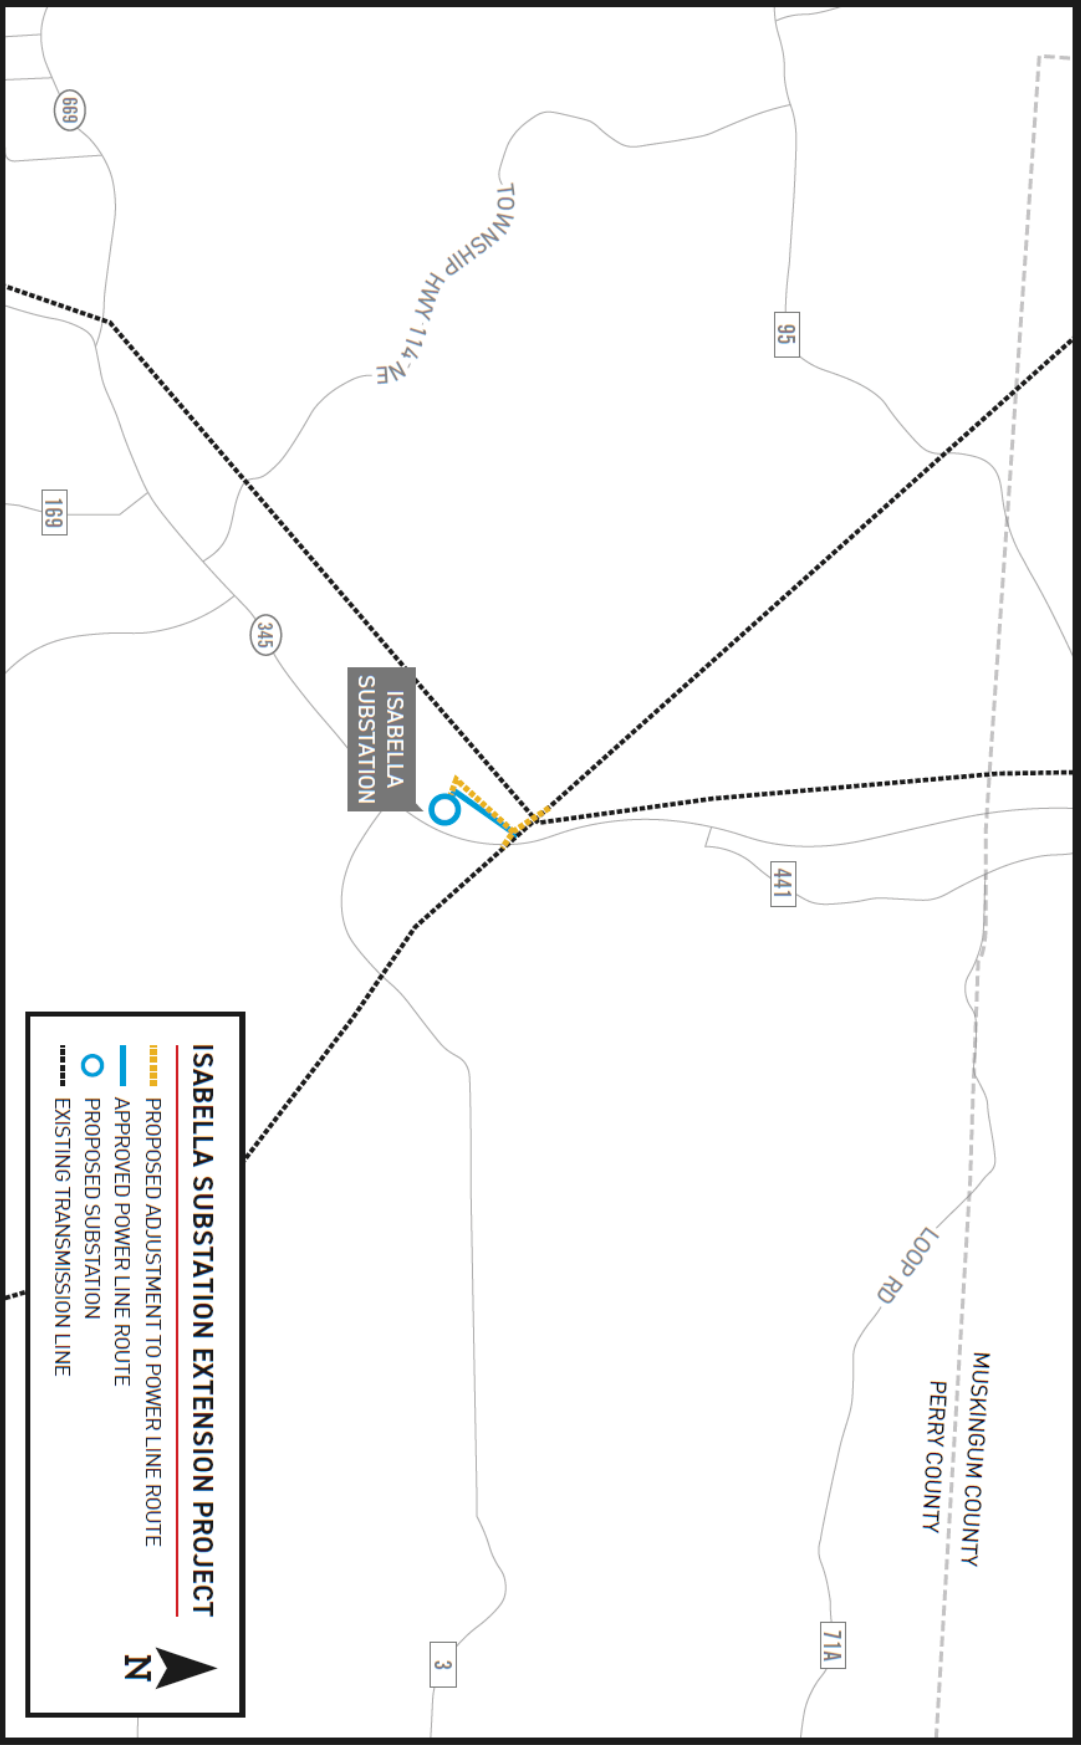

We have filed the updated route with the OPSB as the Adjustment to Crooksville-North Newark 138-kV Transmission Line Extension Project, Case No. 19-0951-EL-BLN. Please make the attached Letter of Notification available to the public. This is required whenever we make certain changes to our transmission facilities, according to Rule 4906-6-01, et. seq., of the Ohio Administrative Code.

The project helps replace aging transmission infrastructure to increase electric reliability for customers. If the OPSB approves the updated line route, construction of the power line would start this summer on AEP Ohio owned property and conclude at the end of the year. We're also communicating with landowners in the project area.

Please contact me at (614) 552-1134 or [jkdemaree@aep.com](mailto:jkdemaree@aep.com) if you would like an electronic copy of the Letter of Notification or if you have any questions about this project.

Sincerely,

Filed as Adjustment to Crooksville-North Newark 138-kV Transmission Line Extension Project  
Case No. 19-0951-EL-BLN

Dear Neighbor,

You are receiving this letter because public records show you own property or live near a proposed transmission line project.

AEP Ohio announced the Isabella Substation Extension project last November and filed the project with the Ohio Power Siting Board (OPSB) as the Crooksville-North Newark 138-kV Transmission Line Extension Project, Case No. 18-1678-EL-BLN. The project involves building .3 miles of power line to connect to the new Isabella Substation off OH-345 in Clayton Township in Perry County.

As the project continues to develop we are proposing minor adjustments to the approved route for the power line.

We have filed the updated the line route with the OPSB as the Adjustment to Crooksville-North Newark 138-kV Transmission Line Extension Project, Case No. 19-0951-EL-BLN. **Please see Page 3 of this document for key regulatory information associated with this project.**

The project helps replace aging transmission infrastructure to increase electric reliability for customers. If the OPSB approves the updated line route, construction of the power line would start this summer on AEP Ohio owned property and conclude at the end of the year.

You're encouraged to comment on this regulatory update by:
