**The East Ohio Gas Company d/b/a Dominion Energy Ohio
Case No. 19-319-GA-UEx**

SUMMARY

In Case No. 03-1127-GA-UNC, the Public Utilities Commission of Ohio (Commission) authorized a new mechanism that would allow five natural gas companies to alter their method for collecting uncollectible accounts expense. The mechanism approved allows for recovery of actual uncollectible accounts expense through a rider, rather than through base rates. Subsequently, on March 17, 2004, in Case No. 03-2573-GA-ATA the Commission issued an entry authorizing the East Ohio Gas Company d/b/a Dominion Energy Ohio (Dominion or DEO) to establish an uncollectible expense rider (UEX Rider) recovery mechanism with an initial rate of \$0.0601 per Mcf.

Since that time Dominion has filed annual updates to adjust its UEX Rider rate and the Commission has authorized such subsequent revisions. The recent history of DEO's UEX Rider rate is as follows:

July 2014 - July 2015	\$0.1113 per Mcf
August 2015 - August 2016	\$0.0383 per Mcf
August 2016 - September 2017	\$0.0661 per Mcf
September 2017 – September 2018	\$0.0634 per Mcf
October 2018 – Current	\$0.0326 per Mcf

Dominion filed an application on May 23, 2019, requesting to revise its existing UEX Rider rate of \$0.0326 per Mcf to \$0.0720 per Mcf, an increase of \$0.0394 per Mcf. Staff has reviewed the application and makes its findings and recommendations in this Staff Letter.

STAFF REVIEW

Staff reviewed DEO's annual balance reconciliation covering January 1, 2018 through March 31, 2019 (Attachment 1), the Company's calculation of its revised rider rate (Attachment 2) and the proposed tariffs (Attachment 3). Staff notes that a prudence review of this UEX rate, if approved, will occur in the Company's next uncollectible expense audit in Case No. 20-319-GA-UEx.

STAFF RECOMMENDATION

Staff believes that Dominion appropriately calculated the UEX Rider rate in its application and recommends that the proposed rate of \$0.0720 per Mcf be approved.
