Hello. I am responding to the windmill project in Seneca County. It is my opinion that a project such as this affects so many people in the county. It affects their homes, life, and the surrounding area that they live in and experience. Such a project this large and the location and size of the windmills being built causes many county residents to be significantly affected. With such a large group of residents in the project area this project should be brought to a county wide vote. Giving representation to all those who are affected to have a voice.

Walter Stahl
