Subject: Comment for Docket 16-0253-GA-BTX

Mr. Butler,

Last week I submitted a comment to the Docket via the website, but it has not appeared.

I'd appreciate your getting it posted and have attached a slightly updated copy.

What if?

What if a gas pipeline explosion like the one today (8/1/19) near Lexington, KY (see below) happened on Duke's proposed high-pressure pipeline in Hamilton County?

What if Duke's proposed pipeline exploded in the section of the 'alternate' route along Summit Park in Blue Ash during the annual 4th of July or other celebrations with thousands of people there?

What if Duke's proposed pipeline exploded in the section of the 'preferred' route in the Kenwood Town Center shopping center parking lot on Black Friday?

What if Duke's proposed pipeline exploded in the section of the 'preferred' route in the The Jewish Hospital - Mercy Health parking lot?

What if Duke's proposed pipeline exploded in the section of the 'alternate' route in a residential neighborhood in Reading where hundreds of people live?

High capacity natural gas pipelines **do not** belong in densely populated urban/suburban areas! Please **DO NOT** approve Duke's unsafe, unnecessary pipeline.
