Description of the transaction.

T-Mobile US, Inc. (“T-Mobile”) and Sprint Corporation (“Sprint”), along with other entities described herein, have entered into an agreement under which Sprint will become a wholly owned subsidiary of T-Mobile USA, Inc. (“T-Mobile USA”), which is a subsidiary of T-Mobile. Sprint and its subsidiaries, including those that hold certificates issued by the Public Utilities Commission of Ohio (“Commission”), will ultimately be under new ownership. A chart depicting the current corporate structure and ownership of Sprint and T-Mobile is attached as Exhibit C-1. The multiple documents constituting the agreement may be accessed at: https://www.sec.gov/Archives/edgar/data/101830/000110465918028087/a18-12444_1ex2d1.htm.

While the merger transaction will result in a change in the ultimate ownership of Sprint and its subsidiaries, no transfer of Commission certificates, assets or customers will occur under the merger transaction. It will be transparent to the customers of those companies holding certificates issued by the Commission.

I. Description of the Applicants

A. Sprint

Sprint Corporation is a Delaware corporation headquartered at 6200 Sprint Parkway, Overland Park, Kansas 66251. It is the parent of several subsidiary companies, including Sprint Communications Company L.P., Sprintcom, Inc. and US Telecom, Inc.

Sprint Communications Company L.P. (“Sprint Communications”) is a Delaware limited partnership and wholly owned subsidiary of Sprint. Sprint Communications is headquartered at 6200 Sprint Parkway, Overland Park, Kansas 66251. Sprint Communications holds Certificate Number 90-9015 from the Commission and is authorized to provide local exchange services in eighty-five Ohio counties and to provide competitive telecommunications services throughout the state. Although Sprint Communications maintains Certificate No. 90-9015, Sprint Communications does not provide Basic Local Exchange Service (“BLES”) as defined in Ohio Rev. Code Sec. 4927.01(A)(1), nor any local exchange services in Ohio.

Sprintcom, Inc. (“Sprintcom”) is a Kansas corporation headquartered at 6200 Sprint Parkway, Overland Park, Kansas 66251. Sprintcom holds Certificate Number 90-5353 from the Commission and is authorized to provide competitive telecommunications services throughout Ohio.

US Telecom, Inc. (“US Telecom”) is a Kansas corporation headquartered at 6200 Sprint Parkway, Overland Park, Kansas 66251. US Telecom holds Certificate Number 90-1525 from the Commission and is authorized to provide competitive telecommunications services throughout Ohio.

Virgin Mobile USA L.P. d.b.a. Assurance Wireless (“Virgin Mobile”) is a Delaware corporation headquartered at 6200 Sprint Parkway, Overland Park, Kansas 66251. Virgin

Mobile holds Certificate Number 90-5582 from the Commission and is authorized to provide commercial mobile radio services throughout Ohio.

B. T-Mobile

T-Mobile US, Inc. is a Delaware corporation headquartered in Bellevue, Washington and is the parent to T-Mobile USA. T-Mobile is partly owned by and controlled by Deutsche Telekom AG (“Deutsche Telekom”), which is based in Bonn, Germany. Deutsche Telekom provides fixed broadband and wireless services to customers in more than fifty countries around the world.

T-Mobile USA is a Delaware corporation headquartered at 12920 Southeast 38th Street, Bellevue, Washington 98006. It is a subsidiary of T-Mobile and the parent company of T-Mobile Northeast, LLC and T-Mobile Central LLC.

T-Mobile Northeast LLC (“T-Mobile Northeast”) is a Delaware limited liability company headquartered at 12920 Southeast 38th Street, Bellevue, Washington 98006. T-Mobile Northeast holds Certificate Number 90-5445-TP-TRF from the Commission and is authorized to provide wireless services throughout Ohio.

T-Mobile Central LLC (“T-Mobile Central”) is a Delaware limited liability company headquartered at 12920 Southeast 38th Street, Bellevue, Washington 98006. T-Mobile Central holds Certificate Number 90-5449 from the Commission and is authorized to provide commercial mobile radio services throughout Ohio.

II. Description of the Merger Transaction

The agreement between T-Mobile and Sprint describes the steps of the merger transaction, which ultimately will result in the merger of Sprint into a subsidiary of T-Mobile, with Sprint surviving as a direct subsidiary of T-Mobile USA.

A brief description of the steps is as follows. If certain conditions are met, the pre-transaction owners of approximately 84% of Sprint will merge with and into a newly formed subsidiary of T-Mobile – Huron Merger Sub LLC (“Huron”) – with Huron continuing as the surviving corporation. Another T-Mobile subsidiary, Superior Merger Sub Corporation (“Superior”), will merge with and into Sprint, with Sprint continuing as the surviving entity. Then, Huron will distribute Sprint stock to T-Mobile, which T-Mobile will then contribute to T-Mobile USA. Following completion of these steps, Sprint will be a wholly owned subsidiary of T-Mobile USA, which is a direct subsidiary of T-Mobile. Deutsche Telekom and SoftBank Group Corp. (“SoftBank”) are expected to hold roughly 42% and 27% of the fully diluted shares of T-Mobile Common Stock, respectively, with the remaining approximately 31% of the fully diluted shares of T-Mobile Common Stock held by public stockholders. Exhibit C-2 depicts the post-closing structure following the merger transaction. Sprint Communications, Sprintcom, US Telecom and Virgin Mobile are among the subsidiaries included in the “Sprint Subs” in the diagram.

While the Sprint subsidiaries will become indirect subsidiaries of T-Mobile USA, they will continue to operate as subsidiaries of Sprint. T-Mobile USA will continue to be a wholly

owned subsidiary of T-Mobile, Inc. T-Mobile will continue to operate as T-Mobile, and its headquarters will remain in Bellevue, Washington. It will maintain a secondary headquarters in Overland Park, Kansas.

The agreement is conditioned upon approval of the T-Mobile and Sprint shareholders, as well as required regulatory and other governmental consents. The merger transaction is subject to approval by the Federal Communications Commission (“FCC”) and review by the U.S. Department of Justice (“DOJ”). Applications seeking FCC approval were filed on June 18, 2018. Both Deutsche Telekom and SoftBank filed their individual notices with the DOJ on May 24, 2018. Also, the parties to the transaction filed applications with nineteen state utility commissions with authority to approve the transaction; eighteen states have approved the transaction to date. T-Mobile and Sprint intend to consummate the merger as promptly as possible after all necessary federal and state regulatory approvals have been received and all other pre-conditions are met.

III. Public Convenience and Adequate Service at Reasonable Rates

The merger is in the public interest and public convenience. As noted above, the Sprint subsidiaries that are certificated by the Commission will remain wholly owned subsidiaries of Sprint. There is no risk of competitive harm from the Sprint entities being acquired by a new parent because neither T-Mobile USA nor its subsidiaries have any entities certified by the Commission that provide wireline services in competition with the Sprint entities being acquired.

The merger will be transparent to existing customers of the Sprint entities because the Sprint entities will continue to provide the services that they currently provide in Ohio, subject to pre-existing Sprint plans to discontinue TDM services and transition customers to Internet Protocol (“IP”) services. All existing Sprint contracts will be honored, including transitioning customers to IP services.

The transaction will affirmatively promote the public convenience. The managerial, technical and financial resources available to the Sprint entities will increase. The Sprint entities will become part of a much larger scale entity with substantial financial resources. The Sprint entities will be able to offer a wider array of services that can be bundled with wireless services. This will permit the Sprint entities to be more competitively effective in the marketplace, all of which is beneficial to Ohioans. As a result, approval of the transaction will promote the public convenience and result in the provision of adequate services for reasonable rates.

The merger will also accomplish a goal critical to enhancing the public convenience throughout the country including in Ohio: the rapid and widespread deployment of 5G networks in a market structure that spurs rivals to invest in the increased capacity and, correspondingly, to drop the price of data per gigabyte. This is because the new T-Mobile will be able to leverage a unique combination of complementary assets to unlock synergies in order to build a world-leading, nationwide 5G network. This next-generation wireless technology will deliver unprecedented services to customers, increasingly disrupt the wireless industry, and ensure U.S. leadership in the race to deploy 5G. This new nationwide 5G network will also bring increased high-speed broadband coverage to rural consumers in Ohio and nationwide. The new T-

Mobile's increased investment and rapid growth, along with the accelerated roll-out of 5G services, will stimulate additional jobs throughout the country.
