**Re: Pre-Application Notification Letter
In the Matter of the Construction Notice Application of
The Dayton Power and Light Company for a Certificate of
Environmental Compatibility and Public Need for the
Bath Substation Expansion Project
Ohio Power Siting Board Case No. 19-1345-EL-BNR**

Dear Docketing:

The Dayton Power and Light Company ("DP&L") files this Pre-Application Notification Letter for the above-referenced Project pursuant to Rule 4906-6-03(A) of the Ohio Administrative Code.

DP&L is proposing the Bath Substation Expansion Project ("Project") located in Xenia, Greene County, Ohio. This transmission station is expanding by less than 20% of the existing fence line on property owned by The Dayton Power and Light Company. The purpose of this Project is to install a second 345/138 kilovolt (kV) transformer at Bath Substation. The new equipment is being added to resolve a reliability criterion violation and will improve operating capacity, operational flexibility, and reliability in the area.

In accordance with Ohio Administrative Code (OAC) 4906-6-02, 4906-6-05 and the Appendix to 4906-1-01, this Project falls within the Ohio Power Siting Board (OPSB) requirements for a Construction Notice (CN) application.

DP&L anticipates that construction of the Project will begin June 1, 2020, pending approval of this Construction Notice. The anticipated in-service date for the Project is June 1, 2021.

Please feel free to contact me if you have any questions regarding this notification letter.

Respectfully submitted,

ss:/ *Randall V. Griffin*
