Re: In the Matter of the Application of The Dayton Power and Light Company for Authority
to Recover Certain Storm-Related Service Restoration Costs, Case No. 18-0381-EL-RDR

Docketing Division:

On November 21, 2018, the Staff of the Public Utilities Commission of Ohio ("Staff") filed its Review and Recommendation in the above-referenced case. In its Review and Recommendation, Staff recommended the Commission approve the Storm Cost Recovery Rider (SCRR) subject to certain adjustments in the amount of \$368,960. The Dayton Power and Light Company ("DP&L" or "the Company") addressed these recommended adjustments in its Comments filed on April 5, 2019. After considering the Company's Comments, Staff issued its Reply Comments reducing its recommended adjustments to Stock Issuances and Store Handlings by \$4,876. OCC filed Comments agreeing with Staff's Review and Recommendation. Though the Company respectfully disagrees with some of the positions taken by Staff in its recommended disallowances, it welcomes the opportunity to collaborate with Staff to avoid similar points of disagreement in future filings. For purposes of resolving this matter most efficiently and avoiding a hearing, DP&L is willing to accept and implement the adjustments to the SCRR as recommended by Staff in its Review and Recommendation as modified by the Staff Reply Comments. This results in a monthly billed amount to residential customers of \$0.29, non-residential customers of \$1.16, and private outdoor lighting of \$0.08.

Thank you very much for your attention to this matter.

Sincerely,

[/s/ Michael J. Schuler](#)
