Brakey Energy Retail's services will be narrowly limited to the brokerage function. Brakey Energy Retail will not function as a supplier. Many of the requirements listed in Section 4928.10 would not be applicable to a company that is not a generation supplier.

Brakey Energy Retail is the sister company of Brakey Energy. The key employees are the same between the two companies. Brakey Energy has been in business since 1999, and its employees have a unique understanding of Ohio's regulatory environment. The company has been helping scores of commercial and industrial energy users in Ohio contract for electric generation since the generation market first truly opened up and has contracted thousands of accounts.

Brakey Energy Retail will not be the party that contracts with the customers or provides billing statements. However, Brakey Energy Retail is highly selective in the suppliers it chooses to do business with. Brakey Energy Retail works with its clients to ensure that the suppliers they work with are reputable, CRES certified, and provide exceptional levels of customer service.

Brakey Energy Retail makes all of its employees easily available to its customers. We are highly responsive to customer issues, and all of our clients work directly with key personnel.
