Subject: Wind Turbines

We are sure you are aware of the current battle against the so called Wind Farms proposed for Seneca and surrounding counties. Are you aware of the Karst. Hopefully you are and realize the impact it will have on our wells. We live with 6 turbines within 3/4 miles. We live in a woods and enjoy the natural beauty and wildlife. Effect? Hopefully your department is aware of the effects it will have on these. We have owls in area. My husband feeds the deer and other wildlife in our woods. Hummingbirds and Monarch Butterflies we feed and have plants growing for them to feed on. Hope your department has an answer to what will become of them and what will happen with the Karst. Thank you, Herman and Patricia Studer
