**RE: Amendment to the Speidel-Barnesville 138 kV Transmission Line Project
Case No. 19-1067-EL-BTA**

Dear Neighbor,

You are receiving this letter because AEP Ohio proposes to rebuild a power line in Belmont County.

Plans involve upgrading approximately 4 miles of power line between the Speidel and Barnesville substations. The project helps ensure electric service reliability and supports economic development.

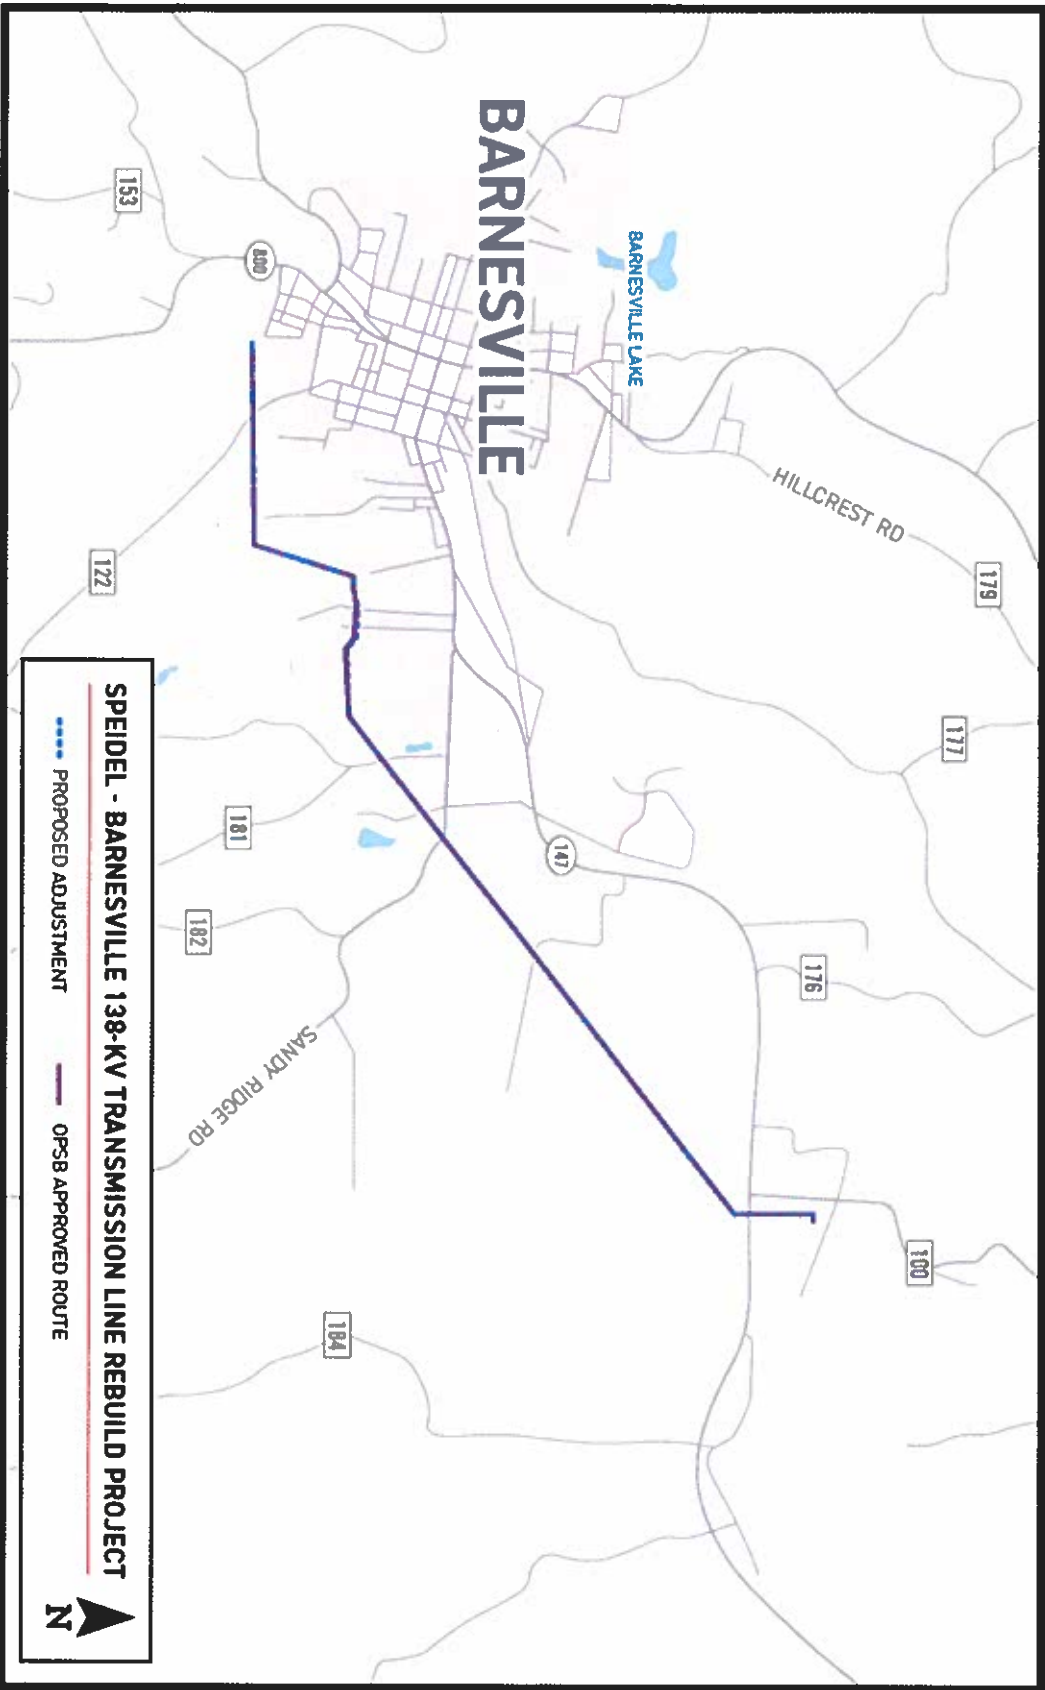

We submitted an application to the Ohio Power Siting Board (OPSB) for this project on June 24, 2016. The OPSB certified this application as complete on August 19, 2016, based on the requirements outlined in the Ohio Administrative Code (OAC) 4906-3-06 (A)(1). On February 2, 2017, the OPSB approved this application under Case No. 16-0437-EL-BTX and issued the certificate for the construction, operation and maintenance of the transmission facilities along the preferred power line route.

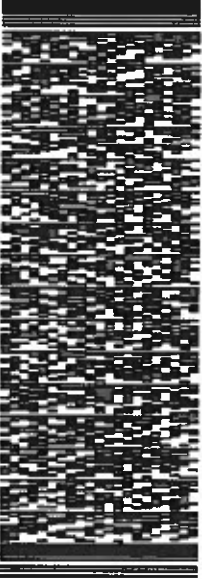

We filed the enclosed amendment with the OPSB on June 10, 2019 that includes minor alignment shifts to the route. Copies have also been distributed to local government officials, the local public library and property owners in the project area.

For additional details about the OPSB and this project, please visit <http://www.opsb.ohio.gov>. To view an electronic version of the application, search Case No. 19-1067-EL-BTA. You can visit AEPOhio.com/Speidel-Barnesville and follow the directions to obtain an electronic copy or hard copy.

Sincerely,

Joe Demaree
