To the OPSB: First things first, I am **STRONGLY OPPOSED** to granting Republic Wind application for wind turbines in Seneca county for a number of reasons, which I have stated in my previous letters, but will mention again: The karst issue; water wells contaminated, health concerns, property values decreased, turbines not efficient, not true clean energy, need I continue? Looking at all of the most recent comments concerning the pro wind turbine issue in Seneca county, I am surprised that most of the letters are 'FORM LETTERS' presumably from Apex and all the people need to do is sign their names. You have to ask yourself, how not committed is that? Please remember: **EVERYTHING THAT GLITTERS IS NOT GOLD.....**

Linda Morsher
Bellevue, Ohio
