Date: Tuesday, March 10, 2020 3:05:24 PM

My name is Linda Morsher, my husband and I live in Seneca County and will be adversely affected by the Republic Wind project should they be granted their permit for construction. We are opposed to the project for many reasons: health, safety of life and property, shadow flicker, groundwater and karst issues, noise and decrease in property values. I have attended meetings, hearings locally and in Columbus, and have written several comments and letters in opposition to this project. The wind issue is a very touchy issue for many people. This issue has divided some neighbors, families and even the community. I have looked at a lot of the public comments on the OPSB website, and have submitted comments myself. I have noticed that most of the public comments of those in favor of the wind project come in the form of a standardized form letter, which all the person has to do is sign their name and mailing address. While those that opposed this project appear to have taken the time to write comments which are in their own words, not submit some form letter. Again, I implore the OPSB to do "What's right, not what's easy." And don't forget: "Everything that glitters is not gold."

Respectfully submitted,

Linda Morsher
