Monthly Variable Rate Commodity Service

1. Description

Monthly Variable Rate (“MVR”) commodity service is provided by competitive retail natural gas (“CRNG”) suppliers participating in Dominion Energy Ohio’s (“East Ohio”) Energy Choice program pursuant to the June 18, 2008 Opinion and Order issued by the Public Utilities Commission of Ohio (“PUCO”) in Case No. 07-1224-GA-EXM. MVR commodity service is rendered in conjunction with East Ohio’s Energy Choice Transportation Service – Nonresidential (“ECTS-NR”) and Large Volume Energy Choice Transportation Service (“LVECTS”) rate schedules.

2. Price

- 2.1 The price for MVR commodity service is based on the Customer’s assigned CRNG Supplier’s posted MVR price. CRNG Suppliers shall post or otherwise make available the MVR price by the first of each month for the applicable billing period. A CRNG Supplier’s MVR price charged for a monthly billing period shall be no greater than any of its monthly variable rates (“Competitive MVRs”) posted on the PUCO’s Apples-to-Apples Chart for the same billing period. All CRNG Suppliers offering MVR commodity service are required to have a Competitive MVR posted on their list of active offers available to all eligible customers on the PUCO’s Apples-to-Apples Chart.
- 2.2 The amount billed for MVR commodity service will also include the applicable Ohio sales and use tax for those Customers not exempted from the payment of that tax. A CRNG supplier shall charge all of its MVR Customers the same posted MVR price for the billing period over which the price is to be effective. The MVR price shall be denominated as the rate per Mcf of Customer usage.

3. Applicability

For those Customers eligible to receive service under the ECTS-NR or LVECTS rate schedules, MVR commodity service will be provided to those Customers with annual consumption of greater than 200 Mcf as determined by East Ohio, that do not select a CRNG supplier or participate in an opt-out governmental aggregation program after having received SSO service for up to two consecutive billing periods.

4. Other Terms and Conditions

- 4.1 MVR commodity service will be billed by East Ohio in conjunction with charges for service under the ECTS-NR or LVECTS rate schedule.
- 4.2 Customers may cease receiving MVR commodity service at any time at no additional charge from East Ohio or the MVR supplier by enrolling with a

CRNG supplier in accordance with standard Energy Choice enrollment provisions or participating in an opt-out governmental aggregation program.

- 4.3 Customers assigned to MVR commodity service may not select their MVR supplier. MVR commodity service shall be provided by the Customer's assigned CRNG supplier unless the Customer enrolls with a CRNG supplier, participates in an opt-out governmental aggregation program, or becomes ineligible to receive MVR commodity service.

1. Description

Standard Choice Offer (“SCO”) commodity service is provided by competitive retail natural gas (“CRNG”) suppliers participating in Dominion Energy Ohio’s (“East Ohio”) Energy Choice program pursuant to the June 18, 2008 Opinion and Order issued by the Public Utilities Commission of Ohio (“PUCO”) in Case No. 07-1224-GA-EXM and the February 26, 2020 Opinion and Order issued by the PUCO in Case No. 18-1419-GA-EXM. SCO commodity service is rendered in conjunction with East Ohio’s Energy Choice Transportation Service – Residential (“ECTS-R”) and Energy Choice Transportation Service – Nonresidential (“ECTS-NR”) rate schedules.

2. Price

The price for SCO commodity service equals the New York Mercantile Exchange (“NYMEX”) settlement price for the prompt month natural gas contract on the final day of trading for each month plus a Retail Price Adjustment of \$0.15 per Mcf as approved by the February 13, 2020 Finding and Order issued by the PUCO in Case No. 20-0119-GA-UNC. The amount billed for SCO commodity service will also include the applicable Ohio sales and use tax for those Customers not exempted from the payment of that tax.

3. Applicability

Provided they are eligible to receive service under the ECTS-R rate schedule or under the ECTS-NR rate schedule if annual consumption is less than or equal to 200 Mcf as determined by East Ohio, SCO commodity service will be provided to the following Customers:

- a) Customers assigned to a CRNG supplier in accordance with the February 11, 2020 auction conducted to establish SCO pricing and to determine suppliers for those Choice-eligible Customers receiving Standard Service Offer (“SSO”) or SCO commodity service as of the March 2020 billing period.
- b) New Customers assigned to a CRNG supplier after having received SSO service for up to two consecutive billing periods. New Customers include Customers (i) establishing service with East Ohio for the first time, (ii) relocating within East Ohio’s service territory and whose Energy Choice or government aggregation agreement is not portable, and (iii) restoring service more than ten days after being disconnected for non-payment.

- 4.2 Customers may cease receiving SCO commodity service at any time at no additional charge from East Ohio or the SCO supplier by enrolling with a CRNG supplier in accordance with standard Energy Choice enrollment provisions or participating in an opt-out governmental aggregation program.
- 4.3 Customers assigned to SCO commodity service may not select their SCO supplier. SCO commodity service shall be provided by the Customer's assigned CRNG supplier through the March 2021 billing period unless the Customer enrolls with a CRNG supplier, participates in an opt-out governmental aggregation program, or becomes ineligible to receive SCO commodity service prior to the March 2021 billing period.
- 4.4 In the event of a supplier default that would cause the aggregate annualized volume assigned to SCO suppliers to be more than 50% above the level assigned in the February 11, 2020 auction, East Ohio shall solicit volunteers from non-defaulting SCO suppliers to serve the defaulted load through the March 2021 billing period at the price established in that auction. If non-defaulting SCO suppliers agree to serve the defaulted load under those terms, East Ohio shall assign the Customers previously served by the defaulting supplier that have not already selected another CRNG supplier or enrolled in a governmental aggregation program to non-defaulting SCO suppliers in proportion to the SCO load each serves at the time of the assignment. If a proportionate assignment does not accommodate assignment of the entire load, East Ohio may utilize another basis provided assignments are made in a non-discriminatory manner approved by PUCO Staff. In the event non-defaulting SCO suppliers do not voluntarily agree to serve the entire defaulted load under the terms described in this section, East Ohio shall conduct a supplemental auction under the supervision of PUCO Staff for the volume that had been served by the defaulting supplier. East Ohio shall assign Customers as ordered by the PUCO in its decision regarding the results of the supplemental auction.
