Case No. 18-1546-EL-BGN Nestlewood Solar I

April 15,2020

Dear Board Members;

I am a property owner that adjoins the Nestlewood solar project. I have for the past year and some months now watched as this project has begun.

It seems to me there has been no real concern as to how any of the adjoining property owners feel about the project. A neighbor collected a petition over a year ago with names of property owners, many also adjoining the project, who are concerned with this project being near their homes. And yet no direct communication to this date has been made from Nestlewood to any of these owners to my knowledge. Nestlewood did have a public meeting but issues were not addressed. Nestlewood dodged questions and didn't seem to care about our concerns.

As I walk our family farm (Century Family Farm), I think of how my great grand parents and now on down to my son and his wife have worked so hard to keep and preserve the farmland. We have two natural springs (one within feet of the project) on the farm which will now be of concern to us due to the Nestlewood project. Nestlewood have people who say no harm. My research shows these projects have not been around long enough to verify any kind of positive long term affects.

I ask that you put yourselves in our positions. With this coronavirus going around, we all must remain in our homes to avoid this virus. Imagine property owners surrounded by a questionable project that has NOT been tested long enough to be proven safe long term.

Sincerely,

Dorothy Yelton
