Re: Case No. 19-1881-EL-BGN
In the Matter of the Application of Madison Fields Solar Project, LLC for a
Certificate of Environmental Compatibility and Public Need to Construct a
Solar-Powered Electric Generation Facility in Madison County, Ohio.

**Supplement to Notice of Compliance with Service Requirement for
Third Public Information Meeting**

Dear Ms. Troupe:

Pursuant to Rule 4906-3-03(B)(2) of the Ohio Administrative Code, on June 11, 2020, Madison Fields Solar Project, LLC ("Applicant") filed notice that it has complied with the service requirement set forth in this rule. In accordance with this rule, a letter was sent by first class mail at least 21 days before the meeting to the property owners and tenants affected by this facility notifying them of the third public information meeting that was held on June 16, 2020. In addition, this notice was sent to county and township public officials, and the local school district. Exactly 130 mailers were sent. These notices also included information about the project and an insert on how to access the presentation of the project and how to participate in the June 16, 2020 meeting. The letter and the inserts that accompanied the letter are attached hereto.

Both the letter and the insert provided information and the telephone number that the public could use to access the meeting. It came to the Applicant's attention just prior to the meeting on June 16th that, while the letter and newspaper notice contained the correct telephone number, the insert and social media information transposed the number and consequently the caller was routed to another recipient. However, two hours prior to commencement of the meeting, the social media telephone number was corrected, so that it accurately reflected the call-in telephone number. In addition, the Applicant coordinated with the other recipient and arranged for the recipient to provide any caller with the correct call-in number for the meeting. From review of the process and information from those that attended the meeting, coordination with the recipient worked and callers were successfully provided the correct call-in number.

The Applicant is committed to working with the community and wants to provide information and answer any questions that the public may have regarding the project. To that end, the Applicant will be posting a recording of the live phone-in session on both the

Page 2

FaceBook page and the mircrosite, as well as continue to accept questions submitted through the website throughout the permitting process and have subject matter experts contact the community member directly for conversation or discussion upon the issues of their concern, and will provide another opportunity for the public to directly interact with the Applicant. Specifically, the Applicant will be providing email and telephone number access for the project manager so that individuals can contact her directly to obtain more information on the project and ask any questions they have. Notice of this opportunity and the project manager's contact information will be mailed via letters to the same 130 individuals that received notice of the June 16, 2020 meeting. In addition, the Applicant will publish notice of this opportunity in the newspaper.

We are available to answer any questions you may have.

Respectfully submitted,

/s/ Christine M.T. Pirik

**Re: Madison Fields Solar Project, LLC Third Public Informational Meeting for
Proposed Electric Generation Facility in Madison County, Ohio.**

Dear _____:

Madison Fields Solar Project, LLC (Madison Fields), a wholly-owned subsidiary of Savion, LLC, held two public information meetings in Madison County, Ohio on November 5 and 6, 2019, to outline plans to build the Madison Fields Solar Project, an electric generation facility in Madison County, Ohio. For more information on the project, please see the enclosed document, which was provided at the first two public information meetings and has been updated to reflect any changes to the project.

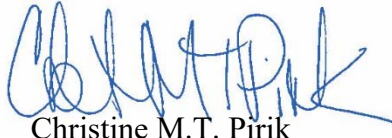

On Tuesday, June 16, 2020, from 6:00 p.m. to 7:00 p.m., Madison Fields will host an additional public information meeting that will be virtual and will consist of a live phone question and answer (Q&A) session on the project. This live phone Q&A session is being held in accordance with Rule 4906-3-03 of the Ohio Administrative Code, and the Ohio Power Siting Board's entry issued on May 22, 2020, in Case No. 19-1881-EL-BGN.

Beginning on Tuesday, June 9, 2020, a presentation about the Madison Fields Project will be posted on Madison Field's website (www.madisonfieldssolarproject.com) and Facebook page (www.facebook.com/MadisonFieldsSolarProject) for viewing by the public at their convenience. Alternative access to the presentation is also available upon request.

For information on how to view the presentation, obtain copies of the presentation, and/or participate in the live phone Q&A session, see following notice, as well as the enclosed insert.

If you have any questions, you may call the Project Developer, Sarah Moser, at (419) 910-1566.

Sincerely,

Christine M.T. Pirik

Enclosure

Notice of Public Information Meeting for Proposed Major Utility Facility

Madison Fields Solar Project, LLC, a wholly-owned subsidiary of Savion, LLC, held two public informational meetings in Madison County, Ohio, on November 5 and 6, 2019, to outline plans to build the Madison Fields Solar Project, a solar-powered generation facility located in Madison County. The facility will be sited on approximately 1,000 acres and have a maximum total generating capacity of up to 180 megawatts. The purpose of the facility is to generate electricity and is intended to fill the need for a more diverse national energy portfolio that will include a higher percentage of energy generated through the use of renewable resources. The facility design has been optimized to utilize land and still provide environmental and visual setbacks to achieve a minimal impact to natural resources and adjacent residents' viewshed. Construction is anticipated to begin as early as first quarter of 2022, resulting in commercial operations in fourth quarter 2022.

On Tuesday, June 16, 2020, from 6:00 p.m. to 7:00 p.m., Madison Fields will host an additional public information meeting that will be virtual and will consist of a live phone question and answer (Q&A) session on the project. The meeting will be virtual in nature to adhere to the current restrictions regarding public gatherings. The public will be able to participate in the Q&A session by telephone. Similar to the meetings held in November, questions will be answered directly by the subject matter experts. The live phone Q&A session will be brought to you via telephone, there will be no visual presentation during the event.

On Tuesday, June 9th @ 6:00pm - 1 week prior to the June 16, 2020 live phone Q&A session, a presentation about the project, which will include maps, will be posted on Madison Field's website (www.madisonfieldssolarproject.com) and Facebook page (www.facebook.com/MadisonFieldsSolarProject) for viewing by the public at their convenience. Alternative access to the presentation is also available upon request by contacting Sarah Moser (Project Developer) at Attn: Sarah Moser, Savion, LLC., 422 Admiral Blvd., Kansas City, MO 64106, (419) 910-1566, or smoser@savionenergy.com. The public can submit comments to Madison Fields prior to, and for 1 week following, the Tuesday, June 16, 2020 live phone Q&A session via Madison Field's website, Facebook page, or in writing via email or mail.

To access the live phone Q&A session on Tuesday, June 16, 2020, from 6:00 p.m. to 7:00 p.m., attendees will call (877) 229-8493 and enter PIN 119551. During the live phone Q&A, instructions will be provided to submit questions. For additional information on how to access the live phone Q&A contact the Madison Fields team via the addresses or telephone number listed above.

Madison Fields anticipates filing its application with the Ohio Power Siting Board (OPSB) within 90 days of the live phone Q&A session. OPSB's case number for the project is 19-1881-EL-BGN and the filings made with the OPSB in the Madison Fields case can be viewed at <http://dis.puc.state.oh.us/CaseRecord.aspx?Caseno=19-1881&link=DI>.

Upon the receipt of the application, OPSB will review the application to determine if it is complete so OPSB staff can begin its investigation. Should OPSB find the application complete, OPSB will set a date for public hearing, not less than 60 nor more than 90 days after such finding. The public hearing consists of two parts: a public hearing where OPSB will accept written or oral testimony and an adjudicatory hearing. 15 days prior to the public hearing, OPSB's staff will submit a written report on the project.

OPSB accepts written comments on the project from interested persons at any time, as well as written or oral testimony from any person at the public hearing. Petitions to intervene in the adjudicatory hearing will be accepted by OPSB in accordance with a deadline set by OPSB. To request notification of the public hearing or submit comments in the docket contact OPSB at 180 E. Broad St., Columbus, OH 43215, 1-866-270-6772, or contactOPSB@puc.state.oh.us. Petitions to intervene should be addressed to Docketing Division, the Ohio Power Siting Board, 180 E. Broad St., Columbus, OH 43215 or can be electronically filed. All correspondence and petitions to intervene must include reference to Case No. 19-1881-EL-BGN.

We Cordially Invite You to Participate in Our Virtual Public Information Meeting

During this time of restricted public gatherings, the Madison Fields Solar Project team is proud to present a Virtual Public Information Meeting to share the latest updates and detail on the solar project. We stay committed to working closely with the Madison County community to answer all questions, and use methods that make it easy and convenient for everyone to participate and stay informed.

What: Madison Fields Solar Project Virtual Public Information Meeting

When: Pre-recorded presentation video will be posted online Tuesday, June 9, 2020
Live phone question and answer session will be held on Tuesday, June 16, 2020

MADISON FIELDS SOLAR PROJECT

The Benefits of Going Solar in Madison County:

- Impacts to the local economy through increased revenues to local governments and other services
- Boosts local business; creates new jobs during construction
- Requires minimal water consumption during construction and operations
- Will not increase local traffic during operations or create burden on municipal services (i.e. sewer, water, emergency services, etc.)
- Clean, renewable energy has a beneficial impact on the environment
- Provides an abundant, earth-friendly, sustainable power resource to help stabilize electricity costs
- Offsets carbon emissions from fossil fuel power plants, and contributes to the diversification of the nation's electricity grid
- Quiet renewable energy generator without emissions

MADISON FIELDS SOLAR PROJECT

Harnessing the Power of the Sun in Madison County

Madison Fields Solar Project, LLC is proposing a 180 MW solar energy facility in Madison County, bringing many positive impacts to the local economy and community.

A solar project provides a healthy, productive economic development opportunity for local land to harvest a stable cash crop – the sun.

We are excited to be working in partnership with the Madison County community on an opportunity to host a clean, environmentally compatible, renewable energy generation facility.
