A-13. Company history

My name is Al Inman, the founder and President of Inman Energy Solutions. After 15 years of working for a national energy supply company, I realized my supply experience was very beneficial to the end users. I created Inman Energy Solutions in June 2018 to join the energy consumers in purchasing of natural gas and electricity as a consultant. I currently have clients spread out across the United States but my main focus is on Industrials located in Ohio, Kentucky and Indiana.

**What you should
know about
credit scores**

Your credit score is a number that reflects the information in your credit report.

Your credit report is a record of your credit history. It includes information about whether you pay your bills on time and how much you owe to creditors.

Your credit score can change, depending on how your credit history changes.

**How we use your
credit score**

Your credit score can affect whether you can get a loan and how much you will have to pay for that loan.

The range of scores

TransUnion scores range from a low of 309 to a high of 839.

Equifax scores range from a low of 334 to a high of 818.

Experian scores range from a low of 320 to a high of 844.

Generally, the higher your score, the more likely you are to be offered better credit terms.
