---

Hearher

I am sorry I forgot about an appointment for my mom.

My opinion is that a fully funded decommissioning plan must be part of the application and must be assessed by the OPSB prior to approval of any solar or wind turbine project.

Approval of the project without such a plan puts the local population at risk. This is not a single site generating facility.

My opinion is that every wind turbine incident needs to be reported and assessed. Just like other industries, every incident needs to be evaluated. The stakes are bigger here.

Thank you  
Cheryl Mira

Dear Registrant,

As you have registered to provide verbal comments in tomorrow's Workshop, I am writing on behalf of the Ohio Power Siting Board to provide the following [access information](#) for participating in Case No. 19-778-GE-BRO, on August 14, 2020 at 10:00 a.m. EST. At the workshop, the Ohio Power Siting Board will only be taking comments from interested stakeholders on the highlighted revisions to proposed rule, Ohio Adm.Code 4906-4-10.

You should have received an invitation from Webex with some of this information. Please note that only addressees to this email are registered to participate as an attendee and provide comments. Attendees to a Webex event will be able to listen to the proceeding, hear others comment, and be selected to provide comments. When it is your turn to comment, you will be promoted to a panelist role within Webex. For your information, I have attached a PowerPoint explaining the process and how to provide comments, as well as the list of individuals who are registered to comment. Comments will be taken in the order provided in the attachment, which was the order the Board received the registration.

**I ask that you log-in by 9:45 a.m. in order to participate in a technology test session to learn about the Webex platform and to work through any potential technical difficulties. Please ensure you have a strong internet connection.** Attached to the email is a Quick Guide for Webex Attendees to review the ways you can participate, and how you can connect to audio.
