Description	Name
No wind mills in Lake Erie. Minimal payback, too much damage to wildlife.	James George
Reference case number: 16-1871-EL-BGN I believe the State of Ohio has an	
obligation to protect our natural resources and should regard the protection of	
Lake Erie as a priority. I do not support the Icebreaker Wind Turbine project. I am	
very concerned about the industrialization of Lake Erie. I strongly urge the Ohio	
Power Sitting Board to uphold its decision to include 33 critical conditions in its	
permit to build wind turbines on Ohio?s greatest natural resource.	
16-1871-EL-BGN As a member of the Lake Erie boating community, I support	Andrew Greene
building windmills. If we can live with the five mile crib off Cleveland, we can live	
with windmills.

My mother (age 87) lives at 404 E third St in Port Clinton OH. I am trying to help	CHESTER W CHAFFIN
her with a problem. There are wires hanging in her back yard from the poles that	
you can actually reach from the ground and touch them. We feel this is unsafe.	
Were told by the Cable company the lines are on railroad property - long story	
short, they need to be fixed. If a good wind comes through, they will rip down all	
the lines, electric and cable. The pole on Washington St is leaning. If you would	
please contact me I would be more than happy me to work with you get this	
corrected.

16-1871-EL-BGN The protection of Lake Erie must remain a priority of the state of Capt jim holcepl Ohio. I support land based solar and wind power. The lake Erie wind turbine project has been rammed through to try to get approval. It is not a financially viable project. It has a huge potential to destroy not only the ecosystem of our great lake, but its scenic beauty. I strongly oppose this project and urge the Ohio Power Siiting Board to sustain its decision and not allow this project to continue without the 33 critical conditions in placeif the project must continue at all. Just look north to Ontario CN, they have many wind turbines all on land near, but not in lake Erie! 16-1871-EL-BGN Reference case number: 16-1871-EL-BGN I believe the State of Ohio has an obligation to protect our natural resources and should regard the project. obligation to protect our natural resources and should regard the protection of	
Lake Erie as a priority. I do not support the Icebreaker Wind Turbine project. I am	
very concerned about the industrialization of Lake Erie. I strongly urge the Ohio	
Power Sitting Board to uphold its decision to include 33 critical conditions in its	
permit to build wind turbines on Ohio?s greatest natural resource.	
Please no windmills in lake erie	Ted Patrick
I believe the State of Ohio has an obligation to protect our natural resources and	
should regard the protection of Lake Erie as a priority. I do not support the	
Icebreaker Wind Turbine project. I am very concerned about the industrialization	
of Lake Erie. I strongly urge the Ohio Power Sitting Board to uphold its decision to	
include 33 critical conditions in its permit to build wind turbines on Ohio?s	
greatest natural resource.	
Lake Erie is our most precious asset! We should never allow any organization,	James Weber
foreign or domestic, to do anything that would or could endanger this beautiful	
asset. Oppose these windmills!	

No windmills in Lake Erie.	John Schmidt
The LEEDCo Icebreaker project should not be approved. Lake Erie must be kept	Richard Graham
clear of this type of activity. It is not economically feasible and could be tragic for	
so many reasons.	
Reference case number: 16-1871-EL-BGN I believe the State of Ohio has an	Mike McConnell
obligation to protect our natural resources and should regard the protection of	
Lake Erie as a priority. I do not support the Icebreaker Wind Turbine project. I am	
very concerned about the industrialization of Lake Erie. I strongly urge the Ohio	
Power Sitting Board to uphold its decision to include 33 critical conditions in its	
permit to build wind turbines on Ohio?s greatest natural resource.	
Reference case number: 16-1871-EL-BGN I believe the State of Ohio has an	DR MATTHEW VILLAIRE
obligation to protect our natural resources and should regard the protection of	
Lake Erie as a priority. I do not support the Icebreaker Wind Turbine project. I am	
very concerned about the industrialization of Lake Erie. I strongly urge the Ohio	
Power Sitting Board to uphold its decision to include 33 critical conditions in its	
permit to build wind turbines on Ohio?s greatest natural resource.	
There is considerable opposition to putting wind turbines in the waters of Lake	John Brock
Erie. Pleas deny approval of this plan. I am concerned that the turbines will never	
deliver a positive economic impact and will some day have to be removed leaving	
the local economy to pick up the considerable decommissioning cost. Impact on	
environment is not well understood. Arguments on both sides so why take this	
risk? Who gains? Certainly not citizens of Ohio. Finally they are a hinderance to	
navigation. Boaters have accidents every year running into well known	
obstructions like break walls. Why put more dangerous obstructions out ther?	
16-1871-EL-BGN - Project Icebreaker will damage Lake Erie. I am an avid boater	Joseph Latina
and do not want to see wind Turbines in the water. Wind Turbines require a lot of	
maintenance and should be placed on land where they are more accessible not in	
the water where their accessibility is limited.	
Please do not allow the wind turbines to litter Lake Erie.	Tom Zmina
Reference case number: 16-1871-EL-BGN I believe the State of Ohio has an	Lara Bischoff
obligation to protect our natural resources and should regard the protection of	
Lake Erie as a priority. I do not support the Icebreaker Wind Turbine project. I am	
very concerned about the industrialization of Lake Erie. I strongly urge the Ohio	
Power Sitting Board to uphold its decision to include 33 critical conditions in its	
permit to build wind turbines on Ohio?s greatest natural resource.

Power Sitting Board to uphold its decision to include 33 critical conditions in its	
permit to build wind turbines on Ohio?s greatest natural resource.	
Against Wind turbines in Lake Erie My family and I oppose wind turbines in Lake	Ken Alvey
Erie. My family and I, along with many others including boating, environmental	
and conservations groups, are not opposed to clean energy. We all boat, fish and	
swim in Lake Erie all summer long. Lake Erie is where we spend our recreational	
time, money and family experiences. However, a critical concern about	
Icebreaker, and the hundreds to thousand more turbines that could follow, is the	
unknown impact on the lake which is, first and foremost, the source of drinking	
water for 12 million people. For example, there are unknown problems stemming	
from turbine installation and laying miles of underwater transmission cables that	
will stir up decades of carcinogens and heavy metals accumulated on the lake	
bottom from a century of dumping dredged materials off Cleveland. The issue	
also affects other Great Lakes where there is a push to start industrial wind farms	
on the Great Lakes in other states. Be aware, because fires and explosions often	
occur in wind turbines, each one would pour the 440 gallons of oils and chemicals	
inside each turbine into the lake waters. Then there could be carcasses washing	
up on area beaches from thousands of birds that turbine blades are known to kill.	
Lake Erie is a recognized migratory bird flyway. And, there are many more	
unanswered environmental, economic and aesthetic questions. As of this date,	
the Icebreaker developers have only submitted an environmental opinion from a	
paid consultant hired to support their permit application. Given that we are	
looking at a proposed generational change to Ohio?s greatest natural resource	
which experts still consider a ?fragile lake,? the need for a full EIS is a no brainer.	
Our Canadian friends say don?t allow wind turbines They point to their personal	
experiences and say, stop the insanity. It is notable that in 2011, Ontario, Canada,	
imposed a Great Lakes moratorium on turbines for many of the same concerns	
about the impact of wind turbines. The moratorium is still in effect today because	
of the inability to adequately address or mitigate similar environmental concerns,	
particularly with respect to drinking water quality. As an Ohio family of 10, 3	
hoats_six kavaks and 3 summer homes on Lake Frie_we are demanding OPSB	
Let?s avoid destroying the planet in order to save it.	Linn Raney
I've shove will be a problem. Go to you tube and search Lake Erie ice ridges and	J. F.
look for the Ontario Hydro clip and out that to the enginers.	
Do not want wind turbines on lake erie	

16-1871-EL-BGN I believe the State of Ohio has an obligation to protect our natural resources and should regard the protection of Lake Erie as a priority. I do	Melissa A. Hazek
not support the Icebreaker Wind Turbine project. I am very concerned about the	
industrialization of Lake Erie. I strongly urge the Ohio Power Sitting Board to	
uphold its decision to include 33 critical conditions in its permit to build wind	
turbines on Ohio?s greatest natural resource.
