**Subject:** I support Emerson Creek Wind!

Dear Docket Submission Ohio Public Siting Board,

Since I was unfortunately unable to attend the virtual public hearing in mid-August, please accept this as my written testimony.

As an Ohioan and a strong supporter of rural economic development, I want to encourage you to award a permit to the Emerson Creek Wind project (Docket No. 18-1607-EL-BGN, Emerson Creek).

Wind energy projects like Emerson Creek are an important part of the future of Ohio's economy. Ohio manufacturing already supplies many of the components for wind projects in other states, and it's high time we put these components, and Ohio manufacturers, to work in our own state.

The economic, community, infrastructure, and health benefits that this project will bring to Northern Ohio are hardly debatable. Please support clean, reliable, and affordable energy that will spur economic development across Ohio. Grant a permit to Emerson Creek Wind.

Regards,  
Ellen Hach

**Subject:** Emerson Creek Windfarm Application

Dear Members of the Board,

We, the great residents of Erie county urge you to reject the Emerson Creek Windfarm application. We think often of the love that we have for our land, our wildlife, and our natural resources. We do love the land where many of us were raised and where many of us chose to settle and raise our own families.

For more years than we care to count, Big government and Big business have poisoned our waters, polluted the air we breathe, killed much wildlife to the extent of near extinction and rendered acre upon a re of land as now useless. They claim it was in the name of technology and advancement. In reality these atrocious acts are carried out in the name of the Holy Dollar and how much of it they can stuff in their pockets.

You know, God so freely and graciously gave us the majestic beauties and mysteries of this magnificent earth to love, enjoy, and share, and it is up to folks like you and I to see that it is not destroyed.

It is hard for us to understand a culture that not only hates and fights its' brothers, but even attacks nature and abuses her. We must love all of creation or he will love none of it. We can not continue to allow big business to destroy nature. Again, we urge you to deny the Emerson Creek Windfarm Application.

In closing, I will leave you with this quote from Chief Dan George (1899-1981).

We should all ask ourselves his questions....

The time will soon be here when my grandchild will long for the cry of a loon, the flash of a salmon, the whisper of spruce needles, or the screech of an eagle. But he will not make friends with any of the creatures and when his heart aches with longing, he will curse me. Have I done all to keep the air fresh? Have I cared enough about the water? Have I left the eagle to soar in freedom? Have I done everything I could to earn my grandchild's fondness?

Respectfully,  
Paul R. Hite
