Hi

As a home owner in Washington township please do not allow solar panels to be installed in this area.

I am concerned for property values, who wants to see panels all around your home. I moved here to get away from towns and city's to enjoy country life. This will impact so many families in the area who cannot afford to move and if they sell their home they will not get the value they need to relocate. What will this do to our drinking water in the area? what will happen to the wildlife?

I don't believe enough research has been done and from what i have researched in other areas people have regretted it.

I have attached our township resolution 2020-6 and i support it.

Thanks

Julia Spurgeon
