Subject: Emerson Creek Transmission Line #19-1073-EL-BTX

Please post this email to the Public Comments section of Case # 19-1073-EL-BTX

We wish to state our opposition to the Ohio Power Siting Board towards the Emerson Creek Transmission Line project and also to the Emerson Creek Wind Turbine project. We own land that is adjacent to where the transmission line will be located, as well as being very close to multiple wind turbines. Two of our daughters and their families live right in that area. We have voiced our concern toward this project in the past. Our feelings have not changed. If anything, they have grown stronger than ever against both of these projects, as well as any wind projects, including those in Seneca County where we reside and own property as well.

Please do not approve these projects. The decision you make will affect our lives forever, and not in a positive way.

Thank you,

Catherine and James Limbird
