**RE: Case No. 20-0952-EL-BLN
Lockbourne 138 kV Station Project
Notice of Adjustments**

Dear Ms. Troupe:

After consulting with OPSB Staff, AEP Ohio Transmission Company, Inc. (“AEP Ohio Transco” or the “Company”) hereby provides the following notice of adjustment to Lockbourne 138 kV Station Project (the “Project”).

Prior to commencing construction of the Project, AEP Ohio Transco identified the need to update the Lockbourne Station footprint included in the Company’s Letter of Notification Application for the Project (the “Application”). Specifically, the Station will extend eight (8) feet on the western side from what was included in the Company’s Application. The extended footprint was reflected in the AEP Ohio Transco’s Stormwater Pollution Prevention Plan for the Project filed in the docket on February 4, 2021. This change does not affect any new property owners or impact any additional wetlands or streams. Additionally, there were no cultural or ecological resources features identified for this portion of the Project and the nearest residence is over 250 feet away. Map 1 shows the approved Station footprint and the proposed Station footprint.

Please let me know if you have any questions or need additional information.

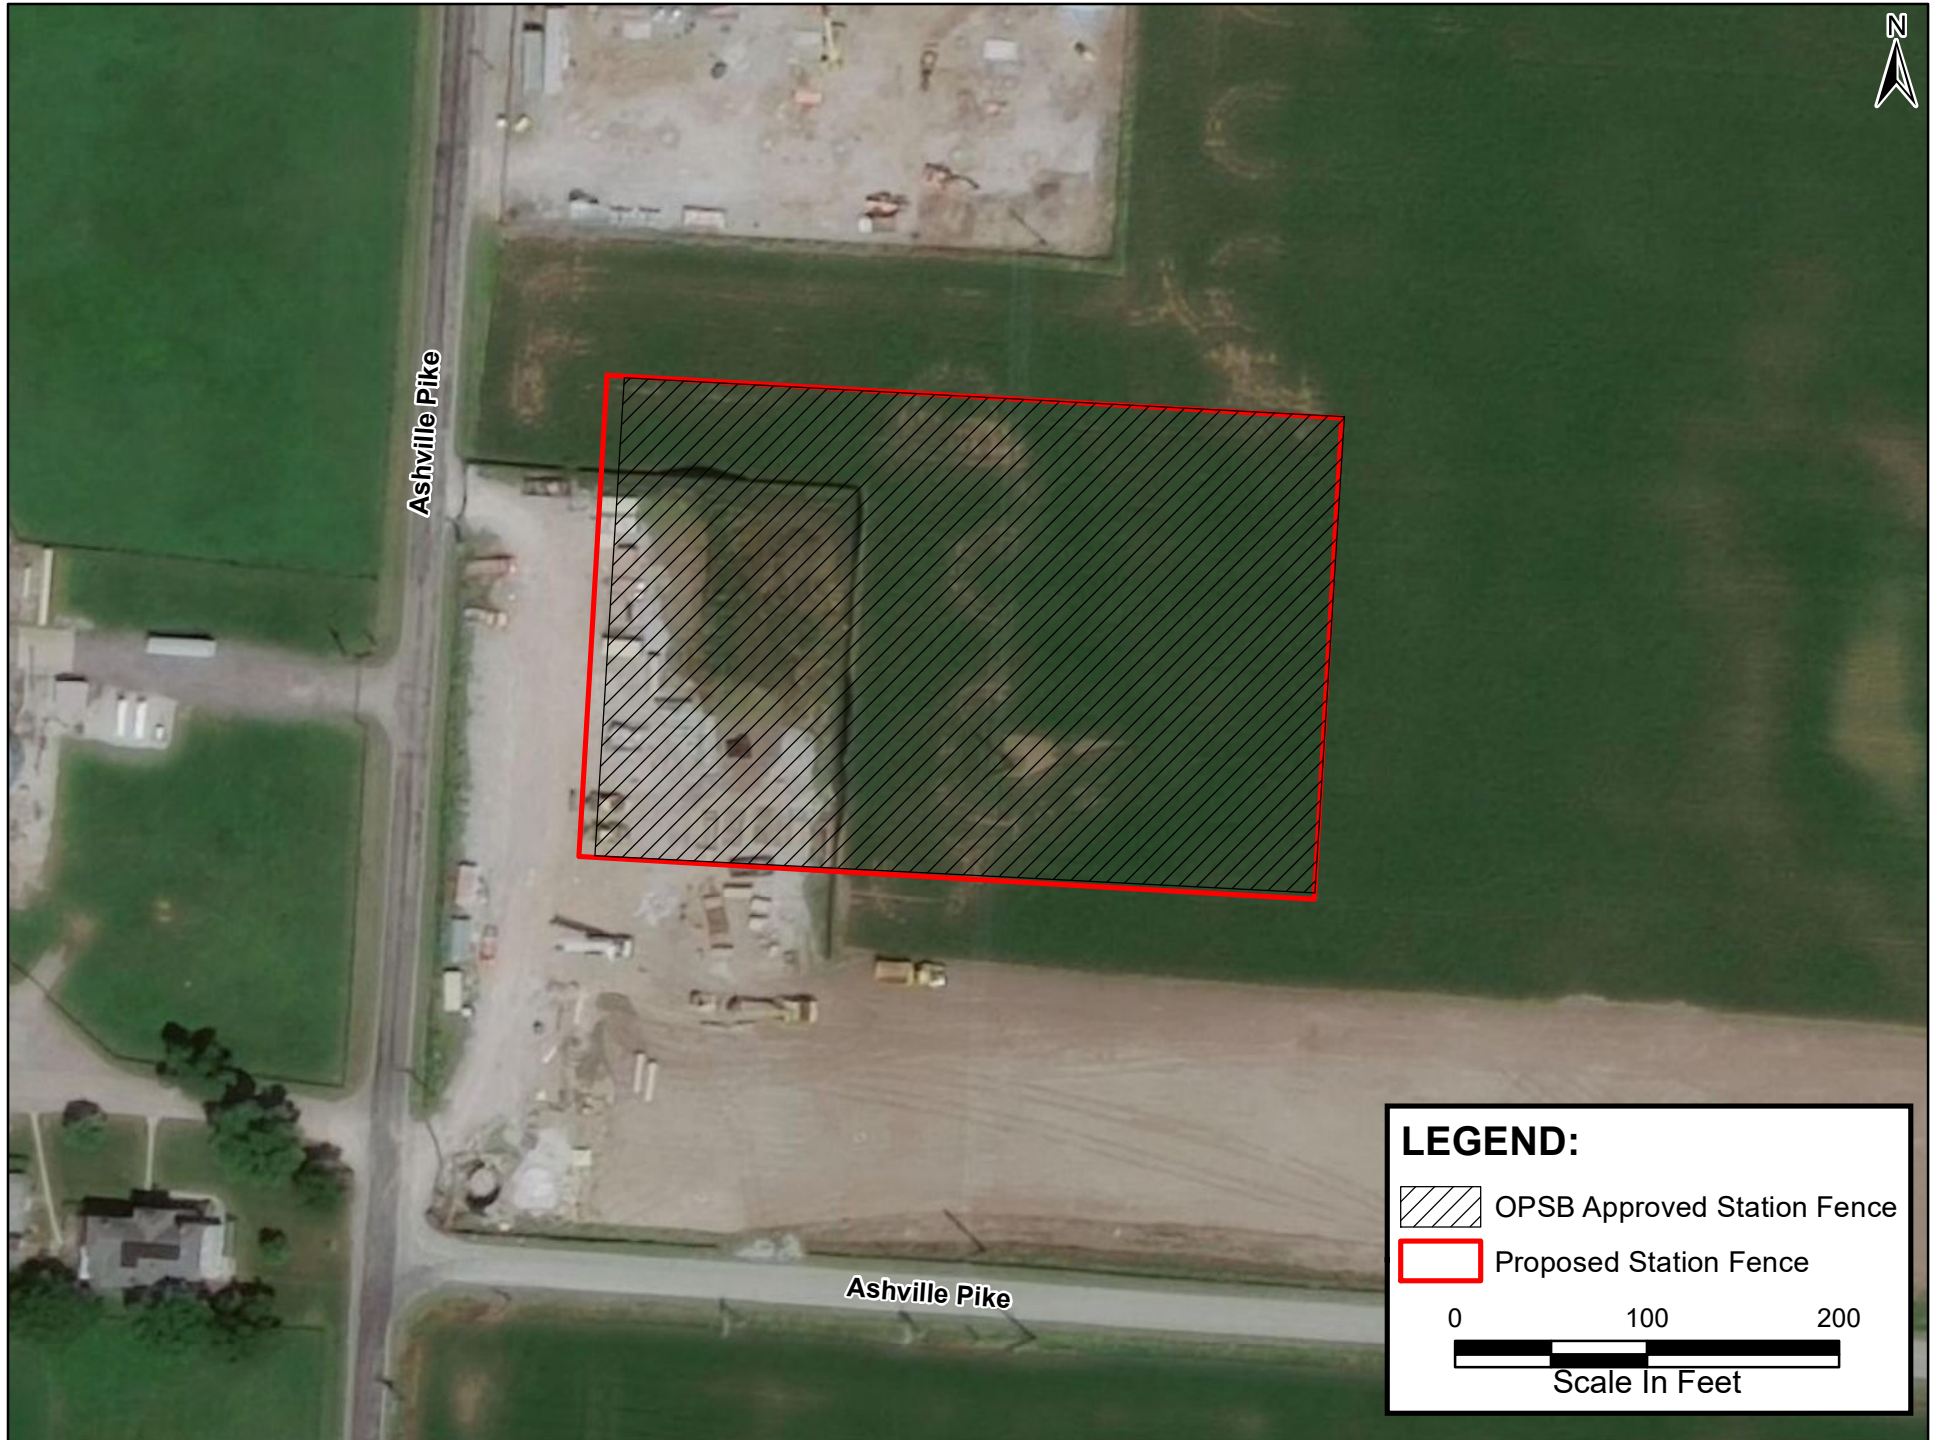

Respectfully submitted,

/s/ Tanner S. Wolfram

Christen M. Blend (0086881), Counsel of Record
Tanner S. Wolfram (0097789)
Counsel for AEP Ohio Transmission Company, Inc.
