First, I would like to reiterate the concerns listed in my neighbors (Allen Jackson) memo posted February 23rd.

I would also like to know what consideration has been given to the migratory animals that use this acreage on a regular basis i.e. (deer, geese and others)? With the amount of fencing that will take place for this project the animals will be forced into the neighborhoods and yards possibly causing hazards as well as property damage for both the residents and for the traffic on Watkins Rd and York Rd.

I would also like to know who is actually contracting for the electricity that will be generated?

Thanking you in advance for addressing the above concerns.
