This email contains documents in support of the NEED for Acciona/Union Solar to address before receiving any approval for this project. Within their proposal pages 39-40 they discuss the use for specific roads ***("The Project will use three state highways (State Route (SR) 739, SR 47, and SR 31")*** for their heavy construction with out showing any supporting documentation that supports their narrative. Union County has never experienced construction for a Solar Farm- they need to provide specifics to the OSPB. I have reached out to the Union County Engineer's Office for any public records discussing the statements made by Acciona, they have none. I searched for any supporting public documentation from ODOT to Acciona and again came up with nothing.

Within ***Appendix - T (Glint & Glare Study)***, they never completed this study on State Route 31. Acciona needs to resubmit a corrected study to OSPB containing the Glint & Glare results along State Route 31. This State Route carries many Semi - Trucks traveling North towards Sandusky/Toledo and South towards Marysville/Columbus.

Acciona needs to correct their proposal to address ***exactly*** how many feet from the roadways these solar panels will be along with supporting documentation to support the information they are providing.

On 04/21/2021 - I shared with the OSPB the crash reports from the State Highway Patrol, the documents from the Union County Sheriff;s Office are an additional supporting factor of the dangerous nature of State Route 31.

I am attaching public records obtained by the Union County Sheriff's Office containing crash reports on State Route 31 primarily within Washington & York Townships. The crashes are in addition to the crashes reported by the State Highway Patrol.

Thank you,
Caroline Locke
