**COMMENT:**

i oppose the franklin st crossing for these reasons: this would cut our community in half , it is used by several residents and other people not directly in our village. it would limit access to the emergency squad house on the other side . it would give us only 1 way in / out ,when a train goes by traffic is backed up way past our only other exit. it is used by kids and seniors going to the new parks and schools these were not there in the original data gathering ,closing would put this foot /bicycle traffic out on a busy road with no sidewalks. there are several users not directly in our village that were not part of the process to voice their opinion because of no notification or very short time periods to do so. This whole process has been in backed by the county and township in favor of the new housing development across the street which was advertising a silent crossing from the start before they built 1 house. hurting our village by closing this crossing is NOT in our best interest and giving away money to other people for their benefit is Wrong. this money does not help us at all and for projects proposed might be illegal.
