---

I am formally filing a complaint against the Palomino Solar Project Case #21-0041-el-bgn and any other solar projects in Highland County either in the pre-application stage or the approved application stage. please do not approve any more, we are strongly against this.

As a family whom these solar projects will directly impact not only financially by cutting our property values significantly, making it impossible to sell our homes and property, but also the mental anguish we will be forced to endure having to look at and live with for the next thirty years. Virtually the rest of my life. What will it do to our health long term? What will it do to the children?

Our beautiful Ohio is slowly being hacked up by these solar farms with no regard to the people who are being forced to swallow these atrocities. There is no regard for wildlife, the land, trees, streams and creeks. For the first time in my life we have a pair of eagles that fly over our home and hunt this area. I think it's disgusting the excuse that's been given that only allows those majestic birds 600 feet from their nest. This is our nations symbol that embodies freedom and justice. What is our country coming to?

Please do not allow anymore solar projects to be approved. We are utterly sick at the injustice that is being allowed to happen here.

Distraught In Highland County
