Tanowa A Troupe, Secretary  
Public Utilities Commission of Ohio  
180 East Broad Street  
Columbus, OH 43215-3793

RE: In the Matter of the Application of CAS Communications, LLC to Modify its Access  
Tariff PUCO No. 1

Dear Secretary Troupe:

Attached please find a request to amend the above-referenced tariff.

Please call or email me with any questions.

Sincerely,

A handwritten signature in black ink that reads 'Eileen M Bodamer'.

Eileen M Bodamer  
Consultant to CAS Communications, LLC

Motion for waiver(s) filed affecting this case? ☐ Yes ☒ No [Note: Waivers may toll any automatic timeframe.]

**Notes:**

Sections I and II are pursuant to Ohio Administrative Code (OAC) [4901:1-6](#).

Section III – Part I - Carrier to Carrier is pursuant to OAC [4901:1-7](#) and Pole Attachment to OAC [4901:1-3](#)

Section III – Part II - Wireless is pursuant to OAC [4901:1-6-24](#).

Section IV – Attestation.

(1) Indicate the Carrier Type and the reason for submitting this form by checking the boxes below.

(2) For requirements for various applications, see identified section of the Ohio Administrative Code Chapter 4901 and/or the supplemental application form noted.

(3) Information regarding the number of copies required by the PUCO may be obtained from the PUCO's website at [www.PUCO.ohio.gov](http://www.PUCO.ohio.gov) under the docketing information system section (Procedural filing requirements), by calling the Docketing Division at 614-466-4095 or by visiting the Docketing Division at the offices of the PUCO.

(4) An Incumbent Local Exchange Carrier (ILEC) offering basic local exchange service (BLES) outside its traditional service area should choose CLEC designation when proposing to offer BLES outside its traditional service area or when proposing to make changes to that service.

**All filings that result in a change to one or more tariff pages require, at a minimum, the following exhibits:**

Exhibit	Description:
A	The tariff pages subject to the proposed change(s) as they exist before the change(s).
B	The tariff pages subject to the proposed change(s), reflecting the change, with the change(s) marked in the right margin.
C	A short description of the nature of the change(s), the intent of the change(s), and the customers affected.
D	A copy of the notice provided to customers, along with an affidavit that the notice was provided according to the applicable rule(s).

## SECTION 5 – MISCELLANEOUS SERVICES

## 5.1 PRESUBSCRIPTION

5.1.1 Presubscription is an arrangement whereby an end user may select and designate to the Company an Interexchange Carrier (IC) to access, without an access code, for interexchange calls. This IC is referred to as the end user's Primary Interexchange Carrier (PIC). The end user may select as its PIC any IC that orders originating FGD Switched Access Service at the end office that serves the end user. After the end user's initial selection of a predesignated IC, for any additional change in selection, a nonrecurring charge as set forth in 5.1.3, following, applies.

5.1.2 New end users who are served by end offices equipped with FGD, will be asked to presubscribe to an IC at the time they place an order with the Company for Exchange Access Service. They may select either of the following options. There will be no additional charge for this initial selection:

- Designate an IC as a PIC and dial 101-XXXX to reach other ICs.
- Designate that they do not want to be presubscribed to any IC and choose to dial 101-XXXX for all calls to all ICs.

5.1.3 Subsequent to the installation of Exchange Access Service, and after the end user's initial selection of a PIC, for any additional change in selection, a nonrecurring charge as set forth in 5.5.1, following, applies.

## 5.2 PRESUBSCRIPTION CHANGE DISPUTE

5.2.1 If an end user or payphone location provider ("PLP") disputes a PIC change, the Company will investigate the origin of the change and shall restore the end user or location provider to their previous PIC. If the change was due to a Company error, the end user or location provider will be returned to their previous primary IC free of charge. If the change was submitted by an IC, and the IC is unable to produce the signed end user or location provider Letter of Authorization, the nonrecurring unauthorized PIC change charge identified in 5.5.2 will be assessed to the IC.

## SECTION 7 – MISCELLANEOUS SERVICES (Cont'd)

## 5.2 PRESUBSCRIPTION CHANGE DISPUTE (Cont'd)

5.2.2 With respect to priority of PIC selection requests, the Company will honor and implement the most recently received of the following: (a) an appropriately issued PIC designation or PIC change from the end user, PLP or their authorized agent(s) or (b) an appropriately signed/verified Letter of Authorization submitted by an IC or (c) a valid order from a court or government agency having appropriate jurisdiction. Consistent with state and federal laws, the Company will not change an end user's or PLP's PIC based on requests by any other parties (except for authorized agents and IC's presenting a qualifying Letter of Authorization), regardless of any contractual arrangements or obligations which the end user or PLP may have with such parties. The Company shall have no liability to the end user, PLP or the other parties for its refusal to change a PIC without adequate authorization as above described.

## 5.3 BILLING NAME AND ADDRESS

Billing Name and Address (BNA) service is the provision of the complete billing name, street address, city or town, state and zip code for a telephone number assigned by the company.

BNA service is provided for the sole purpose of permitting the customer to bill its telephonic communications services to its end users and may not be resold or used for any other purpose, including marketing activity such as market surveys or direct marketing by mail or by telephone.

The customer may not use BNA information to bill for merchandise, gift certificates, catalogs, or other services or products.

BNA service is provided on both a manual and a mechanized basis. On a manual basis, the information will be provided by voice telecommunications or by mail, as appropriate. On a mechanized basis, the information will be entered on magnetic tape containing recorded customer messages.

BNA information is furnished for sent-paid, collect, bill to third number, 700 and 900 service messages and messages charged to a calling card that is resident in the company's database. In addition, BNA information for messages originated from data terminal numbers (DTNs) of data communications services is furnished on a manual basis only.

## SECTION 7 – MISCELLANEOUS SERVICES (Cont'd)

## 5.3 BILLING NAME AND ADDRESS SERVICE (Cont'd)

## 5.3.1 Undertaking of the Company

1. A request for information on over 100 and up to 500 telephone numbers should be mailed to the company. The company will provide the response by first class U.S. Mail within ten (10) business days.
2. Upon receipt of a magnetic tape of recorded customer messages, the company will, at the request of the customer, provide BNA service on a mechanized basis. The customer may provide the tape of messages or, where the customer subscribes to recording service as set forth in 8.2 preceding, may be the output from that service. The company will enter the BNA information on the recorded message tape and send the tape to the customer by first class U.S. Mail. Other methods of delivering the data may be negotiated, and charges based on cost will apply.

The company will provide a response to customer-provided tapes by mail within six (6) business days of receipt. The company will process and mail tapes that are the output of recording service every fifth business day.

3. The company will specify the format in which requests and tapes are to be submitted.
4. The BNA information will be provided for the calling number furnished to the extent a billing name and address exists in the company customer records information system, including non-published and non-listed numbers. If the billing name and address information for a specific calling number is confidential due to legal, national security, end user or regulatory imposed requirements, the company will provide an indicator on the confidential records.
5. The company will provide the most current BNA information resident in its database. Due to normal end user account activity, there may be instances where the BNA information provided is not the BNA that was applicable at the time the message was originated.

## SECTION 7 – MISCELLANEOUS SERVICES (Cont'd)

## 5.3 BILLING NAME AND ADDRESS SERVICE (Cont'd)

## 5.3.2 Obligations of the Customer

- 1 With each order for BNA service, the customer shall identify the authorized individual and address to receive the BNA information.
- 2 A customer which orders BNA service on a mechanized basis and which intends to submit tapes of record messages for processing must provide the company with an acceptable test tape or transmission which includes all call types for which BNA information may be requested.
- 3 The customer shall institute adequate internal procedures to insure that BNA information, including that related to non-published and non-listed telephone numbers, is used only for the purpose set forth in this tariff and that BNA information is available only to those customer personnel or agents with a need to know the information. The customer must handle all billing name and address information designated as confidential by the company in accordance with the company's procedures concerning confidential information. The company will provide to the customer a statement of its procedures concerning confidential information.
- 4 The customer shall not publicize or represent to others that the company jointly participates with the customer in the development of the customer's end user records, accounts, databases or market data, records, files and databases or other systems it assembles through the use of BNA service.
- 5 When the customer orders BNA service for both interstate and intrastate messages, the projected percentage of interstate use must be provided in a whole number to the company. The company will designate the number obtained by subtracting the projected interstate percentage from 100 (100-projected interstate percentage = intrastate percentage) as the projected intrastate percentage. This whole number percentage will be used by the company to apportion the rates and nonrecurring charges between interstate and intrastate in those circumstances where the recorded message detail is not sufficient to permit the company to determine the appropriate jurisdiction. This percentage will remain in effect until a revised report is received as set forth below.

## SECTION 7 – MISCELLANEOUS SERVICES (Cont'd)

## 5.3 BILLING NAME AND ADDRESS SERVICE (Cont'd)

## 5.3.2 Obligations of the Customer (cont'd)

## 5 (cont'd)

Effective on the first of January, April, July, and October of each year the customer may update the jurisdictional report. The customer shall forward to the company, to be received no later than 20 calendar days after the first of each such month, a revised report showing the interstate percentage of use for the past three months ending the last day of December, March, June, and September, respectively. Except where jurisdiction can be determined from the recorded message detail, the revised report will serve as the basis for the next three months billing and will be effective on the bill date in the following month (i.e. February, May, August, and November). No prorating or back billing will be done based on the report. If the customer does not supply the report, the company will assume the percentages to be the same as those provided in the last quarterly report. For those cases in which a quarterly report has never been received from the customer, the company will assume the percentages to be the same as those provided in the order for service.

- 6 The company shall use reasonable efforts to provide accurate and complete lists. The company makes no warranties, expressed or implied, as to the accuracy or completeness of these lists.

## SECTION 7 – MISCELLANEOUS SERVICES (Cont'd)

## 5.3 BILLING NAME AND ADDRESS SERVICE (Cont'd)

## 5.3.4 Rate Regulations

1. Service Establishment Charges apply for the initial establishment of BNA service on a manual basis, for the initial establishment of BNA service on a mechanized basis and for establishment of a master BNA list for a customer.
2. A charge applies for each request for BNA information for a telephone number or DTN number on a manual basis. A charge applies for each message processed to supply BNA information on a mechanized basis.

The company will keep a count of the requests and of the messages processed. The company will bill the customer in accordance with these counts whether or not the company was able to provide BNA information for all request and messages.

3. Where the recorded message detail is sufficient to determine a message is an intrastate message, the rates set forth in the rate schedule following will apply to each such message.

Usage for which the recorded message detail is insufficient to determine jurisdiction will be prorated by the company between interstate and intrastate.

The percentages provided in the reports as set forth in 5.3.2(E) preceding will serve as the basis for prorating the charges. The intrastate charges are determined as follows: For usage sensitive (i.e., requests or messages processed) chargeable rate elements, multiply the intrastate percent times actual use times the stated tariff rate.

4. When a customer cancels an order for BNA service after the order date, the service establishment charge applies.

## EXHIBIT C

### Description of Changes

With this filing, CAS Communications, LLC seeks to modify its Access Tariff PUCO No. 1 to remove all references to chargeable services. While the Company supports access arrangements it does so without charge. Additionally the company does not and has not provided the services found in its section 5 and is revising its tariff to remove that language.
