RE: Letter of Notification  
North Newark-Sharp Road 138 kV Transmission Line Rebuild Project  
Case No. 21-0525-EL-BLN

Dear Neighbor,

You are receiving this letter because public records show you own property or live near a proposed electric transmission project.

AEP Ohio representatives announced plans last spring to rebuild about 20 miles of 138-kilovolt transmission line between North Newark Substation located east of Mount Vernon Road in Newark and the Sharp Road Substation located off Sharp Road, about 4 miles south of Mount Vernon. The improvements to the deteriorating wooden poles from the 1950s are necessary to reduce larger, sustained community outages and strengthen the local electric system. Construction begins this fall and concludes in spring 2024.

We have filed a Letter of Notification for this project with the Ohio Power Siting Board (OPSB) as the North Newark-Sharp Road 138 kV Transmission Line Rebuild Project, Case No. 21-0525-EL-BLN.

**Please see Page 3 of this document for key regulatory information associated with this project.**
