Re: The Dayton Power and Light Company d/b/a AES Ohio Case No. 19-0568-EL-ATA

Docketing Division:

The Dayton Power and Light Company hereby submits a proposed Tariff for modifying its Tax Savings Credit ("TSC") Rider consistent with the Public Utilities Commission of Ohio's ("Commission") Finding and Order dated September 26, 2019 in Case No. 19-568-EL-ATA, et al. adopting the Stipulation and Recommendation ("The Stipulation") filed in that case. The TSC Rider was first implemented on October 1, 2019 and is to be annually trued-up in accordance with the Stipulation. This proposed tariff update will credit certain Distribution Revenue to customers over the next 12 months starting on November 1, 2021, if approved.

This filing includes a reconciliation from the October 2019 – October 2020 rate. The November 2020 – October 2021 rate will be reconciled with the next annual filing; this will allow the true-up to be based on 12 months of actuals.

Consistent with the Commission's February 26, 2020 Second Finding and Order in Case No. 19-841-EL-RDR, a credit for both the historical and ongoing portion of the PUCO/OCC Assessment Fees recovered through the Standard Service Offer Rate are included in this rate.

Once approved by the Commission, the Final Tariff will then be docketed in this case and the Company's TRF docket before the effective date.

Please contact me at jessica.kellie@aes.com if you have any questions. Thank you very much for your assistance.

Sincerely,
/s/Jessica Kellie
