munity members and representatives from Lightsource nity trusting local land to big companies. BP to its meeting on Monday.

the community about a proposed solar field project.

The project, which may take place for up to 40 years, is projected to be placed to the north and northeast of the village with solar panels occupying around 350 acres.

During his presentation, Scher explained the landscaping and wastewater plan for the project while also discussing how the project may effect property values and the local economy.

Local residents also spoke on the proposed project. William and Sue Moats explained their concern about "activists" wanting to change zoning laws. The Moats added that they believe each property owner should have

the right to do with their property as they desire.
Fellow property owner Todd Rosebrock also was for the project, stating that he "felt strongly that it was important to complete the project." Rosebrock noted that he believes the taxes given to the Central Local School district will be beneficial for prosperity and growth.

Lesley Hange and other homeowners expressed anoth-

#### **NOTICE TO CUSTOMERS** CHRISTI WATER SYSTEM, INC. PUCO CASE NO. 20-1428-WW-AIR

## LEGAL NOTICE

The Public Utilities Commission of Ohio (Commission) has scheduled a local public hearing in Case No. 20-1428-WW-AIR, In the Matter of the Application of Christi Water System, Inc. for an Increase in Rates and Charges. This local hearing is scheduled for the purpose of providing an opportunity to interested members of the public to testify in this proceeding. The local hearing will be held at the following time and location: September 1, 2021, at 6:00 p.m., at the Northtowne Mall, 1500 North Clinton Street, Defiance, Ohio 43512. Consistent with CDC Guidelines and the May 17, 2021 Ohio Department of Health Order, unless otherwise specified by the facility, individuals who are not fully vaccinated should continue to wear a face covering and socially distance. Please contact the legal department at 614-466-6843 to ask any questions or request accommodations related to health protocols.

By its application, Christi Water System, Inc. (Christi) seeks a rate and charge increase under a new, consolidated rate structure. According to a Commission staff analysis, under the rates and terms proposed by Christi, a customer using 400 cubic feet (c.f.) of water would see a bill increase of approximately 70 percent. The current rates include base rates established in Case No. 09-569-WW-AIR and purchase water rate last updated in Case No. 15-423-WW-PWA, respectively.

The staff of the Commission recommends the proposed rate structure be rejected and recommends an increase over current revenue of 35.8 percent. Under the staff developed rates, a customer using 400 c.f. of water would see a bill increase of approximately 34.6 percent.

The major issues raised in this case are:

- (a) The rate structure and tariff language.
- (b) The determination of revenues and operating expenses.

Further information may be obtained by contacting the Public Utilities Commission of Ohio, 180 East Broad Street, Columbus, Ohio 43215-3793, the Commission's hotline at 1-800-686-7826, or the PUCO website at http://www.puco.ohio.gov.
