RE: Kingwood Solar Project Application for a Certificate of Environmental Compatibility and Public Need – Notice of Proposed Major Utility Facility

Dear «SALUTATION»,

We are contacting you to provide you with additional information about the Kingwood Solar Project (the “Project”). We look forward to additional conversations about the Project, both at the public hearing on November 15, 2021 and at other future events. This letter contains additional information about the Project, the Ohio Power Siting Board process, and upcoming public hearings on the Project.

About the Project

Kingwood Solar I LLC (“Kingwood Solar”), a subsidiary of Vesper Energy, proposes to develop, build, and operate the Project, an up to 175 megawatt solar-powered electric generation facility to be located in Greene County, Ohio. The general purpose of the Project is to maximize energy production from solar resources to deliver clean, renewable electricity to the regional transmission system. The Project will be located within an area of approximately 1,500 acres and will consist of solar panel generators, as well as access roads, 34.5 kilovolt (kV) electrical collector cables, a meteorological station, a facility substation, and a 138-kV electric generation tie (gen-tie) line that will connect to a utility-owned switchyard. The Project is anticipated to positively impact the local economy by producing significant tax revenue and other economic benefits for the area. A map showing the location and general layout of the Project is below.

Kingwood Solar's Application to the Ohio Power Siting Board

Kingwood Solar has filed with the Ohio Power Siting Board (Board) an application for a Certificate of Environmental Compatibility and Public Need to construct, operate, and maintain the Project in Case No. 21-0117-EL-BGN, which is now pending before the Board. Copies of the application were served upon the Greene County Board of Commissioners, Xenia Township Board of Trustees, Cedarville Township Board of Trustees, Miami Township Board of Trustees, Greene County Soil and Water Conservation District, Greene County Regional Planning and Coordinating Commission, Greene County Department of Development, and Greene County Community Improvement Corporation. A copy of the application was also provided to and is available for public review at the Xenia Community Library, the Cedarville Community Library, and the Yellow Springs Community Library. The full case record can be found via the Board's website at <https://dis.puc.state.oh.us/CaseRecord.aspx?CaseNo=21-0117-EL-BGN&x=0&y=0>. Alternatively, a link to the Board's website with the full case record, including PDFs of the application can be found via Kingwood Solar's website at <https://www.kingwoodsolar.com/>. To obtain additional information about obtaining a hard copy of the application or to request help accessing electronic records, reach out to Kingwood Solar directly at 937-907-0970 or info@kingwoodsolar.com. You can also reach out to the Board directly by calling 866-270-6772.

Ohio Power Siting Board Criteria

The Board utilizes the following criteria for reviewing an application for a major utility facility:

1. The basis of the need for the facility if the facility is an electric transmission line or gas pipeline;
2. The nature of the probable environmental impact;
3. That the facility represents the minimum adverse environmental impact, considering the state of available technology and the nature and economics of the various alternatives, and other pertinent considerations;
4. In the case of an electric transmission line or generating facility, that the facility is consistent with regional plans for expansion of the electric power grid of the electric systems serving this state and interconnected utility systems and that the facility will serve the interests of electric system economy and reliability;
5. That the facility will comply with Chapters 3704., 3734., and 6111. of the Revised Code and all rules and standards adopted under those chapters and under section 4561.32 of the Revised Code. In determining whether the facility will comply with all rules and standards adopted under section 4561.32 of the Revised Code, the board shall consult with the office of aviation of the division of multi-modal planning and programs of the department of transportation under section 4561.341 of the Revised Code.
6. That the facility will serve the public interest, convenience, and necessity;
7. In addition to the provisions contained in divisions (A)(1) to (6) of this section and rules adopted under those divisions, what its impact will be on the viability as agricultural land of any land in an existing agricultural district established under Chapter 929. of the Revised Code that is located within the site and alternative site of the proposed major utility facility. Rules adopted to evaluate impact under division (A)(7) of this section shall not require the compilation, creation, submission, or production of any information, document, or other data pertaining to land not located within the site and alternative site.
8. That the facility incorporates maximum feasible water conservation practices as determined by the board, considering available technology and the nature and economics of the various alternatives.

Notification of Public Hearings

The public will be given an opportunity to comment on the proposed Project. The public hearing for this proceeding shall consist of two parts:

1. A local public hearing, pursuant to R.C. 4906.08(C), where the Board shall accept written or oral testimony from any person, commencing November 15, 2021, at 6:00 p.m., in the Assembly Hall of the Greene County Expo Center, 120 Fairground Rd., Xenia, Ohio 45385; and
2. An adjudicatory hearing to commence on December 13, 2021, at 10:00 a.m., 11th Floor, Hearing Room 11-A, at the offices of the Public Utilities Commission of Ohio, 180 East Broad Street, Columbus, Ohio 43215-3793. To participate in the adjudicatory hearing, intervention in the case is necessary.

The Board has also issued guidelines for attendance at the hearings: Consistent with Centers for Disease Control and Prevention Guidelines and the May 17, 2021 Ohio Department of Health Order, attendees must abide by mitigation measures required by the venue, and individuals who are not fully vaccinated should continue to wear a face covering and socially distance.

Intervention

Petitions to intervene in the evidentiary hearing will be accepted by the Board up to 30 days following service of the notice required by R.C. 4906.06(C) and Ohio Adm.Code 4906-3-09, or October 8, 2021, whichever is later. However, the Board strongly encourages interested persons who wish to intervene in the adjudicatory hearing to file their petitions as soon as possible. Petitions should be addressed to Docketing Division, the Ohio Power Siting Board, 180 East Broad Street, Columbus, Ohio 43215-3793 and cite the above-listed case number.

Should you have any additional questions about this meeting, or if you wish to speak to a member of our staff, please contact us at info@kingwoodsolar.com or at 937-907-0970.

Sincerely,

A handwritten signature in black ink, appearing to read 'DStickney', with a stylized flourish at the end.

Dylan Stickney
Development Manager

Re: Kingwood Solar Project Application for a Certificate of Environmental
Compatibility and Public Need – Notice of Proposed Major Utility Facility

Dear «SALUTATION»:

Pursuant to Ohio Adm.Code 4906-3-09, Kingwood Solar I LLC is providing you with a notice regarding the proposed facility. Also, for your information, a copy of the public notice of the application and hearings was printed in the Xenia Daily Gazette and Fairborn Daily Herald on September 9, 2021 and in the Yellow Springs News on September 10, 2021.

Please do not hesitate to call me at 614-464-5462 with any questions.

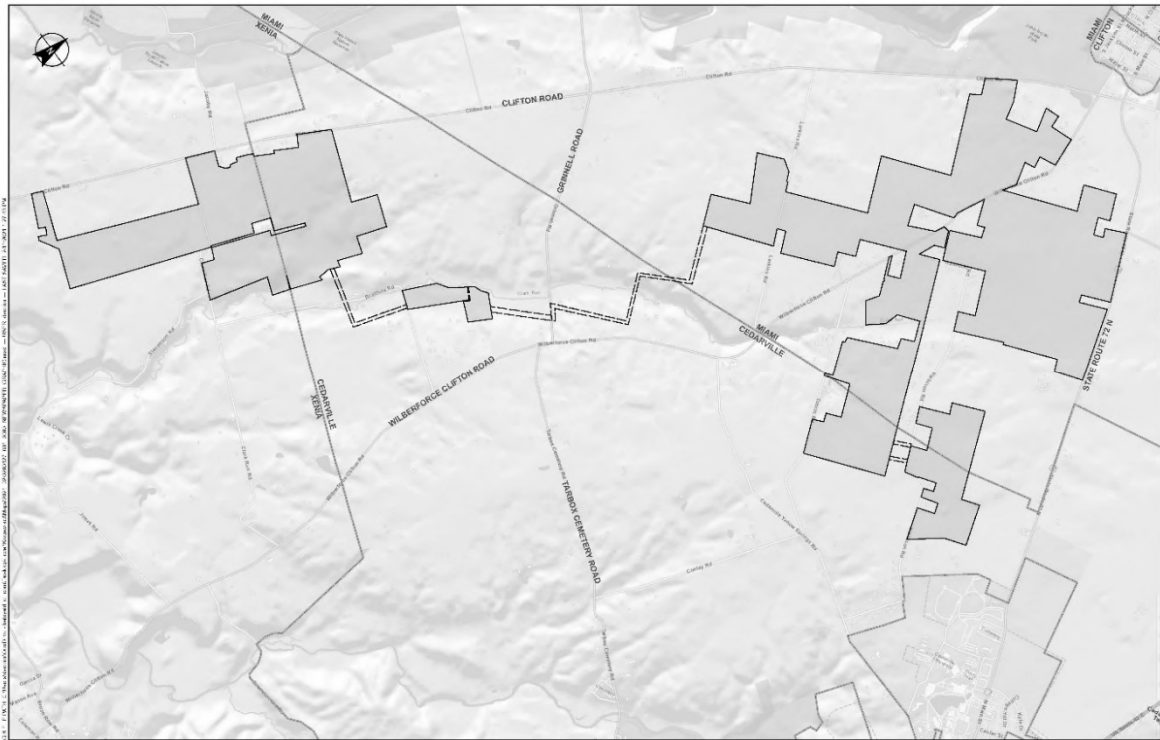

Very truly yours,

Michael J. Settineri

MJS/sl

NOTICE OF PROPOSED MAJOR UTILITY FACILITY

Kingwood Solar I LLC (“Kingwood Solar”), a subsidiary of Vesper Energy, proposes to develop, build, and operate the Kingwood Solar Project (the “Project”), an up to 175 megawatt solar-powered electric generation facility (Facility) to be located in Cedarville, Miami, and Xenia Townships, Greene County, Ohio. The general purpose of the Project is to maximize energy production from solar resources to deliver clean, renewable electricity to the regional transmission system. The Project will be located within an area of approximately 1,500 acres and will consist of solar panel generators, as well as access roads, 34.5 kilovolt (kV) electrical collector cables, a meteorological station, a facility substation, and a 138-kV electric generation tie (gen-tie) line that will connect to a utility-owned switchyard. The Project is anticipated to positively impact the local economy by producing significant tax revenue and other economic benefits for the area. A map showing the location and general layout of the Project is below.

Kingwood Solar has filed with the Ohio Power Siting Board (Board) an application for a Certificate of Environmental Compatibility and Public Need to construct, operate, and maintain the Project in Case No. 21-0117-EL-BGN, which is now pending before the Board. Copies of the application were served upon the Greene County Board of Commissioners, Xenia Township

Board of Trustees, Cedarville Township Board of Trustees, Miami Township Board of Trustees, Greene County Soil and Water Conservation District, and Greene County Regional Planning and Coordinating Commission. A copy of the application was also provided to and is available for public review at the Xenia Community Library, the Cedarville Community Library, and the Yellow Springs Community Library. The full case record, including PDFs of the application, can be found via the Board's website at <https://dis.puc.state.oh.us/CaseRecord.aspx?CaseNo=21-0117-EL-BGN&x=0&y=0>. Alternatively, a link to the Board's website with the full case record can be found via Kingwood Solar's website at <https://www.kingwoodsolar.com/>. To obtain additional information about obtaining a hard copy of the application or to request help accessing electronic records, reach out to Kingwood Solar directly at 937-907-0970 or info@kingwoodsolar.com. You can also reach out to the Board directly by calling 866-270-6772.

The Board utilizes the following criteria for reviewing an application for a major utility facility:

1. The basis of the need for the facility if the facility is an electric transmission line or gas pipeline;
2. The nature of the probable environmental impact;
3. That the facility represents the minimum adverse environmental impact, considering the state of available technology and the nature and economics of the various alternatives, and other pertinent considerations;
4. In the case of an electric transmission line or generating facility, that the facility is consistent with regional plans for expansion of the electric power grid of the electric systems serving this state and interconnected utility systems and that the facility will serve the interests of electric system economy and reliability;
5. That the facility will comply with Chapters 3704., 3734., and 6111. of the Revised Code and all rules and standards adopted under those chapters and under section 4561.32 of the Revised Code. In determining whether the facility will comply with all rules and standards adopted under section 4561.32 of the Revised Code, the board shall consult with the office of aviation of the division of multi-modal planning and programs of the department of transportation under section 4561.341 of the Revised Code.
6. That the facility will serve the public interest, convenience, and necessity;
7. In addition to the provisions contained in divisions (A)(1) to (6) of this section and rules adopted under those divisions, what its impact will be on the viability as agricultural land of any land in an existing agricultural district established under Chapter 929. of the Revised Code that is located within the site and alternative site of the proposed major utility facility. Rules adopted to evaluate impact under division (A)(7) of this section shall not require the compilation, creation, submission, or production of any information, document, or other data pertaining to land not located within the site and alternative site.
8. That the facility incorporates maximum feasible water conservation practices as determined by the board, considering available technology and the nature and economics of the various alternatives.

The public will be given an opportunity to comment on the proposed Project. The public hearing for this proceeding shall consist of two parts:

1. A local public hearing, pursuant to R.C. 4906.08(C), where the Board shall accept written or oral testimony from any person, commencing November 15, 2021, at 6:00 p.m., in the Assembly Hall of the Greene County Expo Center, 120 Fairground Rd., Xenia, Ohio 45385; and
2. An adjudicatory hearing to commence on December 13, 2021, at 10:00 a.m., 11th Floor, Hearing Room 11-A, at the offices of the Public Utilities Commission of Ohio, 180 East Broad Street, Columbus, Ohio 43215-3793. To participate in the adjudicatory hearing, intervention in the case is necessary.

The Board has also issued guidelines for attendance at the hearings: Consistent with Centers for Disease Control and Prevention Guidelines and the May 17, 2021 Ohio Department of Health Order, attendees must abide by mitigation measures required by the venue, and individuals who are not fully vaccinated should continue to wear a face covering and socially distance.

Petitions to intervene in the evidentiary hearing will be accepted by the Board up to 30 days following service of the notice required by R.C. 4906.06(C) and Ohio Adm.Code 4906-3-09, or October 8, 2021, whichever is later. However, the Board strongly encourages interested persons who wish to intervene in the adjudicatory hearing to file their petitions as soon as possible. Petitions should be addressed to Docketing Division, the Ohio Power Siting Board, 180 East Broad Street, Columbus, Ohio 43215-3793 and cite the above-listed case number.

The Project will be located within an area of approximately 1,500 acres and will consist of solar panel generators, as well as access roads, 34.5 kilovolt (kV) electrical collector cables, a meteorological station, a facility substation, and a 138-kV electric generation tie (gen-tie) line that will connect to a utility-owned switchyard. The Project is anticipated to positively impact the local economy by producing significant tax revenue and other economic benefits for the area. A map showing the location and general layout of the Project is below.

Kingwood Solar has filed with the Ohio Power Siting Board (Board) an application for a Certificate of Environmental Compatibility and Public Need to construct, operate, and maintain the Project in Case No. 21-0117-EL-BGN, which is now pending before the Board. Copies of the application were served upon the Greene County Board of Commissioners, Xenia Township Board of Trustees, Cedarville Township Board of Trustees, Miami Township Board of Trustees, Greene County Soil and Water Conservation District, and Greene County Regional Planning and Coordinating Commission. A copy of the application was also provided to and is available for public review at the Xenia Community Library, the Cedarville Community Library, and the Yellow Springs Community Library. The full case record, including PDFs of the application, can be found via the Board's website at <https://dis.puc.state.oh.us/CaseRecord.aspx?CaseNo=21-0117-EL-BGN&x=0&y=0>. Alternatively, a link to the Board's website with the full case record can be found via Kingwood Solar's website at <https://www.kingwoodsolar.com/>. To obtain additional information about obtaining a hard copy of the application or to request help accessing electronic records, reach out to Kingwood Solar directly at 937-907-0970 or info@kingwoodsolar.com. You can also reach out to the Board directly by calling 866-270-6772.

The Board utilizes the following criteria for reviewing an application for a major utility facility:

1. The basis of the need for the facility if the facility is an electric transmission line or gas pipeline;
2. The nature of the probable environmental impact;
3. That the facility represents the minimum adverse environmental impact, considering the state of available technology and the nature and economics of the various alternatives, and other pertinent considerations;
4. In the case of an electric transmission line or generating facility, that the facility is consistent with regional plans for expansion of the electric power grid of the electric systems serving this state and interconnected utility systems and that the facility will serve the interests of electric system economy and reliability;
5. That the facility will comply with Chapters 3704., 3734., and 6111. of the Revised Code and all rules and standards adopted under those chapters and under section 4561.32 of the Revised Code. In determining whether the facility will comply with all rules and standards adopted under section 4561.32 of the Revised Code, the board shall consult with the office of aviation of the division of multi-modal planning and programs of the department of transportation under section 4561.341 of the Revised Code.
6. That the facility will serve the public interest, convenience, and necessity;
7. In addition to the provisions contained in divisions (A)(1) to (6) of this section and rules adopted under those divisions, what its impact will be on the viability as agricultural land of any land in an existing agricultural district established under Chapter 929. of the Revised Code that is located within the site and alternative site of the proposed major utility facility. Rules adopted to evaluate impact under division (A)(7) of this section shall not require the compilation, creation, submission, or production of any information, document, or other data pertaining to land not located within the site and alternative site.
8. That the facility incorporates maximum feasible water conservation practices as determined by the board, considering available technology and the nature and economics of the various alternatives.

The public will be given an opportunity to comment on the proposed Project. The public hearing for this proceeding shall consist of two parts:

1. A local public hearing, pursuant to R.C. 4906.08(C), where the Board shall accept written or oral testimony from any person, commencing November 15, 2021, at 6:00 p.m., in the Assembly Hall of the Greene County Expo Center, 120 Fairground Rd., Xenia, Ohio 45385; and
2. An adjudicatory hearing to commence on December 13, 2021, at 10:00 a.m., 11th Floor, Hearing Room 11-A, at the offices of the Public Utilities Commission of Ohio, 180 East Broad Street, Columbus, Ohio 43215-3793. To participate in the adjudicatory hearing, intervention in the case is necessary.

The Board has also issued guidelines for attendance at the hearing. Consistent with Centers for Disease Control and Prevention Guidelines and the May 17, 2021 Ohio Department of Health Order, attendees must abide by mitigation measures required by the venue, and individuals who are not fully vaccinated should continue to wear a face covering and socially distance.

Petitions to intervene in the evidentiary hearing will be accepted by the Board up to 30 days following service of the notice required by R.C. 4906.06(C) and Ohio Adm. Code 4906-3-09, or October 8, 2021, whichever is later. However, the Board strongly encourages interested persons who wish to intervene in the adjudicatory hearing to file their petitions as soon as possible. Petitions should be addressed to Docketing Division, the Ohio Power Siting Board, 180 East Broad Street, Columbus, Ohio 43215-3793 and cite the above-listed case number.

AFFP

Affidavit of Publication

STATE OF OHIO} SS
COUNTY OF GREENE}

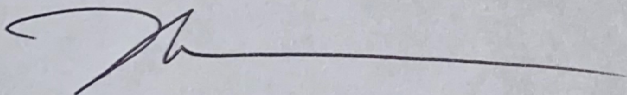

Timothy Walker, being duly sworn, says:

That he is Advertising Manager of the YELLOW SPRINGS NEWS, a weekly newspaper of general circulation, printed and published in Yellow Springs, Greene County, OHIO; that the publication, a copy of which is attached hereto, was published in the said newspaper on the following dates:

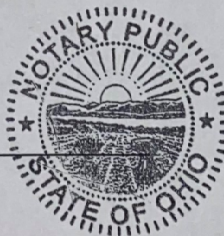

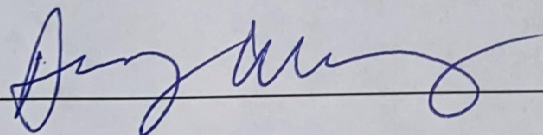

September 9, 2021

That said newspaper was regularly issued and circulated on those dates.

SIGNED:

Subscribed to and sworn to me this 17th day of September 2021

OBITUARIES

Esther Baldwin

Esther Breedlove Baldwin, born Aug. 14, 1923, in Indianapolis, Ind., passed peacefully on Sept. 2, 2021, at the grand age of 98.

She is survived by her daughters and son, Betsy Baldwin Whitney, of Dayton, Ohio; Robert F. Baldwin, of Yellow Springs; Nancy Nierstheimer, of Sidney, Ohio; and Linda Nierstheimer Wilken, of Celina, Ohio. She was most proud of her 20 grandchildren, numerous great-grandchildren and 10 glorious nieces and nephews.

Esther was preceded in death by her parents, John L. Breedlove and Goldie Elizabeth Moore Breedlove; her four siblings; first husband, Paul Howard Nierstheimer; and second husband, Robert F. Baldwin Sr.; daughter, Joy Baldwin Schweizer; sons-in-law, Edward Schweizer and Lee Whitney; daughter-in-law, Carrie Baldwin; one niece, Joan Breedlove Wilder; and one grandson, Robert Schweizer.

Esther was the last of her family generation, and being the baby of her family, she was known for her vim and vigor. She led her nieces and nephews down the pathway of life, sometimes fun and sometimes just moral support. She adored her grandchildren.

Esther was a 50-year member of Eastern Star, joining Acacia Chapter in 1965. Esther enjoyed music and played organ for her Indianapolis Church from high school until she was first married. Her love of music continued as she lived at Ohio Living Dorothy Love Retirement Community, where she sang with all who came to visit — mostly

hymns, but music of the 1940s as well.

Esther had a long career in Dayton as a regional Welcome Wagon Lady, then as an insurance agent, and finally as an executive secretary for the Baldwin and Whitney Insurance Agency. She will be missed by many.

Services were held on Saturday, Sept. 4, 2021, at First Presbyterian Church of Yellow Springs, Ohio, 314 Xenia Ave., Yellow Springs, with Pastor Daria Schaffnit officiating. She was laid to rest at Glen Forest Cemetery. Arrangements in care of Jackson Lytle & Lewis Funeral Home. Condolences may be expressed to her family by visiting www.jacksonlytle.com.

Mildred McConville

Mildred McConville passed away peacefully on Aug. 30, 2021, at the age of 96.

Born April 20, 1925, in the small railroad town of Manly, Iowa, she was one of five children born to Anna and Henry Bachman. Mildred married John McConville in 1954 and they moved to Yellow Springs in 1958 for John's position as a researcher at Antioch College.

She was a longtime member of First Presbyterian Church of Yellow Springs, serving as a deacon and Sunday school teacher. Mildred was on the board of the Children's Center and worked as a volunteer book-keeper for both the Senior Center and Children's Center. She also volunteered at Glen Helen, the Chamber of Commerce and Dayton Art Institute. She enjoyed tennis, bridge, travel and birdwatching.

In 1972, Mildred co-founded the Anthropology Research Project in Yellow Springs with her husband, and served as its accountant for many years.

Mildred is survived by her daughters, Jean McConville Payne (Steve), Kay Reimers and Lynn McConville (Leland Mayne). Her grandchildren are Shayna McConville,

Lauren Payne (Corey), Eric McConville (Nikki), John Reimers, Eric Reimers, Peter Mayne and Eleanor Mayne; and great-grandchildren are Adrienne and Theodore McConville, Oren Johnson and Milla Johnson.

The family designates the Glen Helen Raptor Center for any donations in memory of Mom and our Dad, John McConville.

Barbara Davis

Barbara Altamese Oliver Davis, age 92, made her transition to heaven on Sunday, Aug. 22, 2021, at her home. She was surrounded by family who never left her side after she suffered a stroke on Aug. 12, 2021.

Barbara was born to Jesse D. and Amanda Burr Oliver in Jacksonville, Fla., on Feb. 24, 1929. At a very young age she moved to Albany, Ga., to live with her great-grandmother, Nancy Sims, and great-aunt and uncle, Agnes and Thomas Hunt.

Barbara's education started in Albany, Ga., at Lasters Elementary School at the tender age of 4, where she remained from grades one through eight. She graduated from Madison High School in Albany at the age of 16. Barbara had always aspired to become a registered nurse, but because of her young age, she could not start nursing school until she reached the age of 17. After one year attending Albany State College, Barbara was accepted to the Grady Hospital School of Nursing in Atlanta, Ga. She graduated in 1949 and began her nursing career on the "colored" wards at Phoebe Putney Memorial Hospital in Albany. She spent weekends going to dances with her friends, and eventually met her future husband and married in May 1956.

Much happened in the next 10 years for Barbara, including several moves, the births of three daughters and the onset of the Civil Rights Movement. In the early 1970s, after years of dedicating her life to raising her daughters, she returned to nursing by restarting her career at Charles Drew Health Center in Dayton, Ohio. In 1976, Barbara accepted an instructor position at the then-Greene Joint Vocational School for the first diversified health occupations class, benchmarking a program that is still in existence and in high demand. While working full time and raising her three daughters as a single parent, Barbara continued her education, earning her Bachelor of Science degree in education from Central State University and graduating cum laude in 1978. In the following years, Barbara went on to take graduate level courses and in 1984, she was inducted into Wright State University's Chapter of Phi Delta Kappa.

After 22 years of service, Barbara retired in 1998, living life on her own terms. Barbara enjoyed knitting, calligraphy, traveling, visiting with her grandchildren, collecting recipes and playing Solitaire on the computer. Barbara was also a "Star Trek" fan and had a video cassette collection of every TV show and movie in the franchise. In addition, she was a history buff who also enjoyed reading the tabloids and grocery store romance novels.

Barbara was raised in the Southern Baptist Church. Her Christian education began at Mount Calvary Baptist Church in Albany where, she recounted, she spent more days in church than not while growing up. For close to 50 years, Barbara was a faithful member of Central Chapel A.M.E. Church in Yellow Springs.

During that time, she served in numer-

ous positions: as steward pro tem, senior choir president, chairperson in Christian education, superintendent for Sunday school, usher and member of the Youth Meditation Council. Barbara was not only a member of the Lay Organization, but held various posts and offices for the Connectional Lay Economic Development Corporation, or CLEDC. She was a hard worker when it came to spearheading fundraisers, particularly the Mongolian BBQs often held by the church. Barbara also volunteered her materials and time for making dresses and pants for children in Haiti. She will be fondly remembered for the seafood gumbo dinners that she hosted in her home.

Barbara was preceded in death by her brother, Grover Phillips; and sister, Mary Challenor. She leaves to cherish her memory another sister, Theresa Russaw, of Denver, Colo.; three daughters, Anita L. Davis, of Dayton, Lillian S. McCree (Yuanthony), of Beavercreek, and Karen D. Robinson (Tracey), of Elgin, S.C.; grandchildren, Corrie Mize, LaToya Grinstead, Symone Lewis, Shynell Lewis, Yuanthony Aaron McCree and Raven McCree; great-grandchildren, Tabitha Perry, Aaron Perry, Sean Richardson, Jr., SaRya Grinstead, Micah Green, Aleisha Saunders, Lauryn Saunders, Amari Grinstead, Grayson Saunders, Kei-then Brown Jr. and Makai Grinstead; and many nieces and nephews. Barbara also enjoyed a very close relationship with her niece, Annette Challenor, of Chicago, Ill.

Barbara never met a stranger and had a natural ability to make all who came near her feel welcomed, especially with her enduring sense of humor. She embraced technology, and strongly supported the COVID vaccine. When asked if she wanted to have the COVID vaccine, her response was, "Why wouldn't I?" Barbara loved singing, conversation, sharing her family history and the company of others; for that, she will truly be missed.

Arrangements entrusted to Porter-Quals-Freeman Funeral Home.

Misu Crocker

On Friday, Aug. 27, 2021, Misu Wunnish Crocker, of Athens, Ohio, left this plane at the age of 25, after an instant fatal car crash.

He is survived by his mother, Marta Mari, of Rovinj, Croatia, and her partner, Douglas M. Bailey; father, Billy Ray Crocker Jr., of Cleveland, Ohio; sister, Madison Melody Crocker, and her partner, along with their son, Bear Dean Crocker; brother, Dharma Mani-Pi Crocker; dear friend, Lorien Chavez; and grandmother, Maryann Crocker Stone, and her husband.

Celebration of life services will be held Saturday, Sept. 11, beginning at 8 p.m., in the chapel at the Ohio Renaissance Festival, and on Sunday, Sept. 12, 2-5 p.m., at The Grange in Amesville, Ohio. A third celebration of life will be held in Yellow Springs on a date to be determined.

Arrangements entrusted to Graumlich Funeral Home. For updates on the Yellow

Springs service, and to leave condolences on a tribute page, visit graulmlichfuneralhome.com.

NOTICE OF PROPOSED MAJOR UTILITY FACILITY

Kingwood Solar I LLC ("Kingwood Solar"), a subsidiary of Vesper Energy, proposes to develop, build, and operate the Kingwood Solar Project (the "Project"), an up to 175 megawatt solar-powered electric generation facility (Facility) to be located in Cedarville, Miami, and Xenia Townships, Greene County, Ohio. The general purpose of the Project is to maximize energy production from solar resources to deliver clean, renewable electricity to the regional transmission system. The Project will be located within an area of approximately 1,500 acres and will consist of solar panel generators, as well as access roads, 34.5kilovolt (kV) electrical collector cables, a meteorological station, a facility substation, and a 138-kV electric generation tie (gen-tie) line that will connect to a utility-owned switchyard. The Project is anticipated to positively impact the local economy by producing significant tax revenue and other economic benefits for the area. A map showing the location and general layout of the Project is below.

Kingwood Solar has filed with the Ohio Power Siting Board (Board) an application for a Certificate of Environmental Compatibility and Public Need to construct, operate, and maintain the Project in Case No. 21-0117-EL-BGN, which is now pending before the Board. Copies of the application were served upon the Greene County Board of Commissioners, Xenia Township Board of Trustees, Cedarville Township Board of Trustees, Miami Township Board of Trustees, Greene County Soil and Water Conservation District, and Greene County Regional Planning and Coordinating Commission. A copy of the application was also provided to and is available for public review at the Xenia Community Library, the Cedarville Community Library, and the Yellow Springs Community Library. The full case record, including PDFs of the application, can be found via the Board's website at <https://dis.puc.state.oh.us/CaseRecord.aspx?CaseNo=21-0117-EL-BGN&x=0&y=0>. Alternatively, a link to the Board's website with the full case record can be found via Kingwood Solar's website at <https://www.kingwoodsolar.com/>. To obtain additional information about obtaining a hard copy of the application or to request help accessing electronic records, reach out to Kingwood Solar directly at 937-907-0970 or info@kingwoodsolar.com. You can also reach out to the Board directly by calling 866-270-6772.

The Board utilizes the following criteria for reviewing an application for a major utility facility:

1. The basis of the need for the facility if the facility is an electric transmission line or gas pipeline;
2. The nature of the probable environmental impact;
3. That the facility represents the minimum adverse environmental impact, considering the state of available technology and the nature and economics of the various alternatives, and other pertinent considerations;
4. In the case of an electric transmission line or generating facility, that the facility is consistent with regional plans for expansion of the electric power grid of the electric systems serving this state and interconnected utility systems and that the facility will serve the interests of electric system economy and reliability;
5. That the facility will comply with Chapters 3704., 3734., and 6111. of the Revised Code and all rules and standards adopted under those chapters and under section 4561.32 of the Revised Code. In determining whether the facility will comply with all rules and standards adopted under section 4561.32 of the Revised Code, the board shall consult with the office of aviation of the division of multi-modal planning and programs of the department of transportation under section 4561.341 of the Revised Code.
6. That the facility will serve the public interest, convenience, and necessity;
7. In addition to the provisions contained in divisions (A) (1) to (6) of this section and rules adopted under those divisions, what its impact will be on the viability as agricultural land of any land in an existing agricultural district established under Chapter 929. of the Revised Code that is located within the site and alternative site of the proposed major utility facility. Rules adopted to evaluate impact under division (A) (7) of this section shall not require the compilation, creation, submission, or production of any information, document, or other data pertaining to land not located within the site and alternative site.

8. That the facility incorporates maximum feasible water conservation practices as determined by the board, considering available technology and the nature and economics of the various alternatives.

The public will be given an opportunity to comment on the proposed Project. The public hearing for this proceeding shall consist of two parts:

1. A local public hearing, pursuant to R.C. 4906.08(C), where the Board shall accept written or oral testimony from any person, commencing November 15, 2021, at 6:00 p.m., in the Assembly Hall of the Greene County Expo Center, 120 Fairground Rd., Xenia, Ohio 45385; and
2. An adjudicatory hearing to commence on December 13, 2021, at 10:00 a.m., 11th Floor, Hearing Room 11-A, at the offices of the Public Utilities Commission of Ohio, 180 East Broad Street, Columbus, Ohio 43215-3793. To participate in the adjudicatory hearing, intervention in the case is necessary.

The Board has also issued guidelines for attendance at the hearings: Consistent with Centers for Disease Control and Prevention Guidelines and the May 17, 2021 Ohio Department of Health Order, attendees must abide by mitigation measures required by the venue, and individuals who are not fully vaccinated should continue to wear a face covering and socially distance.

Petitions to intervene in the evidentiary hearing will be accepted by the Board up to 30 days following service of the notice required by R.C. 4906.06(C) and Ohio Adm.Code 4906-3-09, or October 8, 2021, whichever is later. However, the Board strongly encourages interested persons who wish to intervene in the adjudicatory hearing to file their petitions as soon as possible. Petitions should be addressed to Docketing Division, the Ohio Power Siting Board, 180 East Broad Street, Columbus, Ohio 43215-3793 and cite the above-listed case number.
