Re: PUCO Case No. 18-55-RR-FED- In the Matter of a Request for Upgrades to the Active Warning Devices at CSX Transportation Inc. Grade Crossing, DOT# 503-591W, on Waterloo Road in Summit County, Ohio.

On November 27, 2017, the Ohio Rail Development Commission (ORDC) authorized construction for CSX Transportation Inc. to install active warning devices at the following location:

Street	DOT#	County	Project
Waterloo Road	503-591W	Summit	Upgrade

On January 31, 2018, the Commission issued a Finding and Order approving the project and ordering completion by October 31, 2018. On October 31, 2018, CSX filed a request for an extension due to ordering error and material delay. On November 28, 2018, the Commission granted an extension to December 31, 2018.

The crossing project has been completed and is in-service as follows:

Street	DOT#	County	Date of Completion
Waterloo Road	503-591W	Summit	1-30-2019

Accordingly, the above case may be closed.

Jim,

I copied Josh Martin on this email. He can provide the information. I don't have the cell number available.

Thank you!

Amanda,

Thanks for the update. I would however like to point out that not too long ago we had a similar project with CSX (Newell St, DOT#523807E) in which we did not receive the required 5 day advance notice of construction either. Scott Elliot sent an email on 5/19/17 stating that the failure to notify the ORDC would not happen again. I know these are smaller projects but it is still required that CSX follow the advance notice procedure. Could you please send me the construction foreman's phone # so I can reach out to him for a schedule.

Thanks,

James Tucker

Jim,

We have been coordinating with our maintenance team to get this project done, but they were not able to complete it by the deadline.

I spoke with our construction team and they are at the site today.

It should be done in a day or 2.
